A Division of Head Ski Company, Inc.

## Presentation Styling for the Entire Target Line

The classic look and feel of the PRESENTATION II . . . its proven performance over the years, make this truly the "Cadillac" of fine bows. Ask the experts. Check the record books. You will find the PRESENTATION II is consistently the choice of leading professionals.

This year, the PRESENTATION II sets the styling for all Wing Target bows. From the PRESENTATION II to our new SILVER WING, you will recognize the basic family look.

The limb-coupling feature offered exclusively in the PRESENTATION II gives you more flexibility than ever before — a choice of

two handles and six different limb combinations all entirely interchangeable. Take the long handle with 68" and 70" limbs and you have the world's finest target bow. This same handle with a set of 62" limbs gives you a sweet-shooting hunter. And this same combination makes a fine lady's target bow.

The long handle comes in high compression bowflex with a rich inlay of rosewood and a contrasting ebony and pearl white cap. A new grip design this year cradles the

bow in your hand and dampens any tendency you may have to torque the bow during the draw. The sight window is 1/8th inch past center for natural alignment. Our new short handle PRESENTATION II with 58", 64" or 66" limbs makes the first true hunting and field bow. It's described in detail under "hunting bows."

If you like to shoot with a stabilizer, the PRESENTATION II offers five different stabilizer positions and a built-in stabilizer insert adapter. Weights are interchangeable and fasten to the rod tip or to the four handle positions where they secure the limbs to the handle.

Wherever you go . . . on the tour, in the field or on the trail — you will appreciate the balance and stability of this classic bow. And you'll like the way it packs compactly into our optional carrying case.

### PRESENTATION II \$195.00

Lengths: (long handle) 62", 68", 70" (short handle) 58", 64", 66"

Weights: 58" & 62" up to 60 lbs. Other lengths up to 50 lbs.

Draw limit: none

Fistmele: 8 1/2" - 9 1/2"

Riser: Black bowflex and rosewood with cap of contrasting ebony and pearl white.

Glass color: white except for black 58" and 62" limbs

Custom bow case: \$39.95

Extra set of limbs: \$72.95

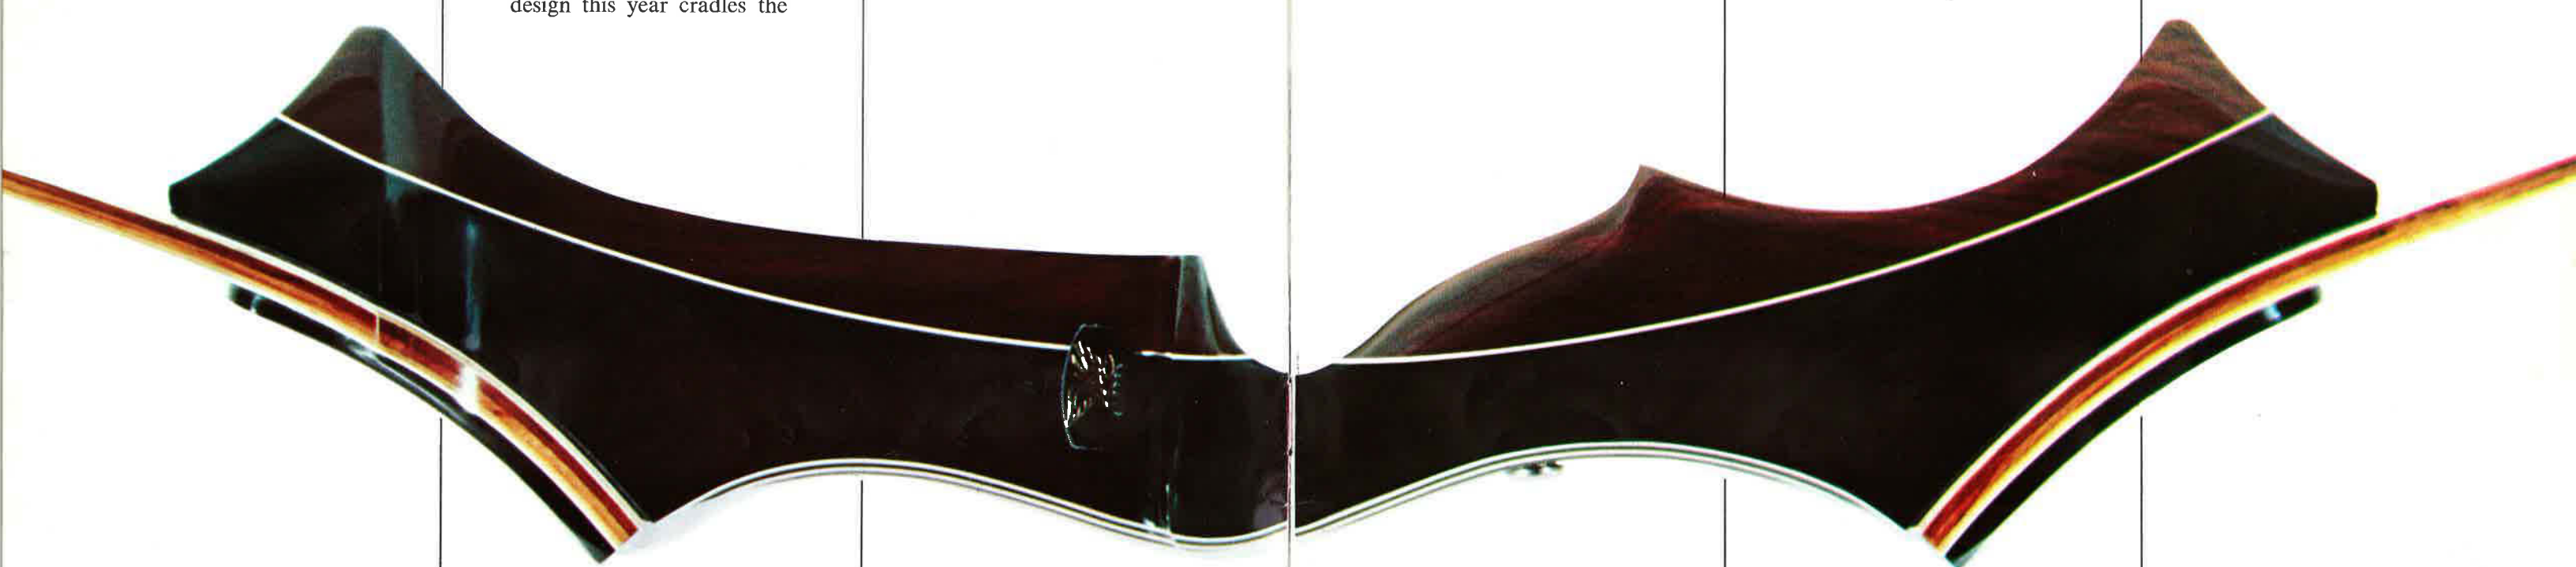

#### IMPORTANT!

When ordering be sure to specify the handle as well as the bow length and weight.

Example (1) short handle 58", 40 lb. Presentation II.

#### WEIGHT FACTS

	Short Handle	Long Handle
Presentation II without Stabilizers	3 lbs., 2 oz.	3 lbs., 10 oz.
With 2 weights	3 lbs., 14 oz.	4 lbs., 6 oz.
With 1 weight & Rod	3 lbs., 14 oz.	4 lbs., 6 oz.
With 3 weights & Rod	4 lbs., 10 oz.	5 lbs., 2 oz.

## Presentation I

Lacking only the limb-coupling flexibility of the PRESENTATION II, this bow is second to none when it comes to performance. It has the mass and weight that tournament archers look for in a competition bow. The smaller grip, this year, gives you built-in steadiness at the crucial moment. The sight window is cut 1/8th inch past center—and the built-in stabilizer insert adapter and optional stabilizer set are refinements that can make the difference between "almost" and "perfect."

The PRESENTATION I riser section is high compression bowflex and rosewood with an African bubinga lamination. The cap is contrasting ebony and pearl white. Available in 66" and 70" lengths, the PRESENTATION I is for you, if you are serious about your score.

### PRESENTATION I \$140.00

Lengths: 66" and 70"  
Weights: 50 lbs. at 28" draw length  
Draw limit: none  
Fistmele: 8 1/2"-9 1/2"  
Riser: black bowflex and rosewood with African bubinga lamination and contrasting cap in ebony and pearl white.

Glass color: white

## White Wing

Here is a bow for the archer who earns his bread and butter with a bow—or for the amateur with a yen to decorate his mantle with trophies. This year, the WHITE WING has PRESENTATION styling and a handsome riser section of African bubinga and rosewood with a rosewood lamination. The cap is rosewood and white maple. The WHITE WING not only looks beautiful, it has the mass and balance that make a beautiful-shooting bow. The grip is designed to cradle in your hand and center naturally. The sight window is 1/8th past center for natural alignment, and the WHITE WING also has a built-in stabilizer insert adapter. You can spend more for a bow in this class—but you cannot buy a better bow. From the standpoint of materials, workmanship, design and performance—the WHITE WING is all by itself.

### WHITE WING \$115.00

Lengths: 66" and 70"  
Weights: to 50 lbs. at 28" draw length  
Draw limit: none  
Fistmele: 8 1/2"-9 1/2"  
Riser: African bubinga and Rosewood with a Rosewood lamination. Rosewood and white maple cap.  
Glass color: white

## Swift Wing

We guarantee it will be love at first flight when you feel the smooth draw and release in the new SWIFT WING for 1969. The look is definitely PRESENTATION. The mass weight . . . the longer draw and the handsome riser of she with an African bubinga lamination . . . the built-in stabilizer insert adapter . . . are shades of PRESENTATION also.

But the price is just \$79.95.

When you compare the materials, workmanship and performance of this bow, we think you will agree it has no competition. And when you see the way it shoots, you'll want all the competition you can find.

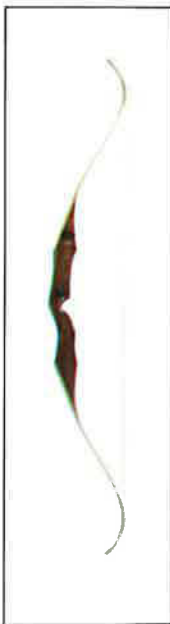

### SWIFT WING \$79.95

Length: 66"  
Weights: to 50 lbs. at 28" draw length  
Draw limit: none  
Fistmele: 8 1/2"-9 1/4"  
Riser: Shedua with African bubinga lamination and cap of bubinga and white maple.  
Glass color: white

## Silver Wing

Much more than a starter's bow—the SWIFT WING is designed especially for the archer who is looking for a step

stone to serious shooting. You can carry this bow to the line with the kind of confidence you expect from a costly design. It has many of the capabilities of a top-of-the-line model and will help you learn technique and establish consistency. The riser is exotic hardwood. The styling is PRESENTATION. And the price for this all-new bow is just \$64.95.

### SILVER WING \$64.95

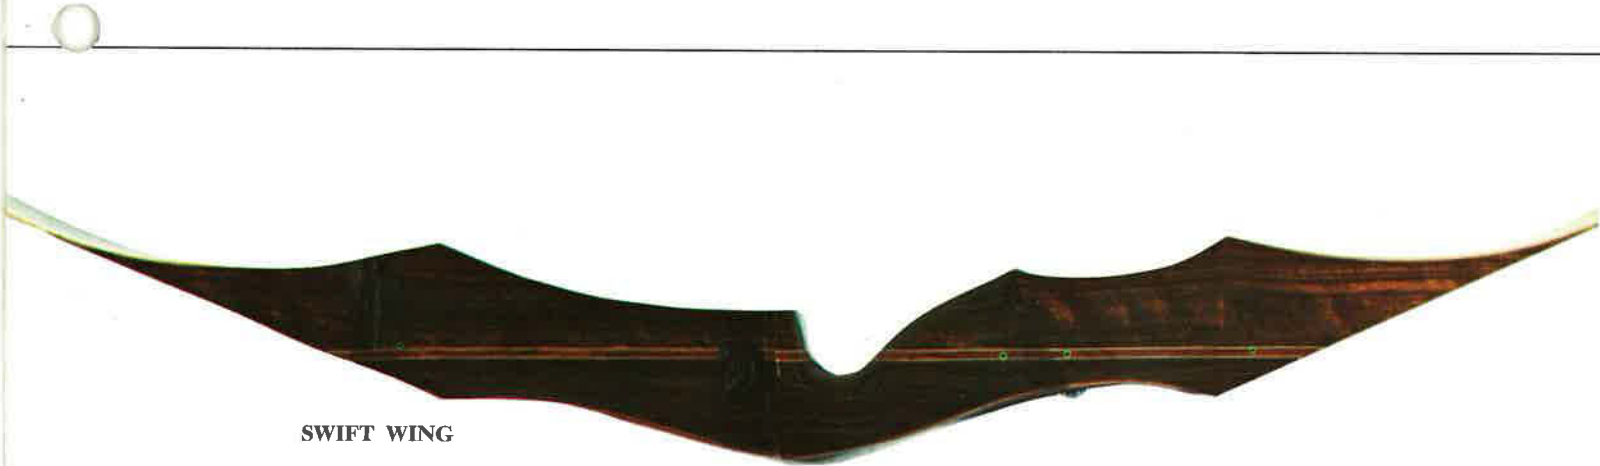

Length: 66"  
Weights: to 50 lbs. at 28" draw length  
Draw limit: none  
Fistmele: 8 1/2"-9 1/2"  
Riser: exotic hardwood  
Glass color: white

SILVER WING

## Presentation II Hunter

Our designers have created the first true hunting and field bow in the tradition of the famous PRESENTATION II. You have to handle this bow to appreciate what it can do. Here's the accuracy of a target bow neatly combined with speed and power in a compact, smooth-shooting hunter.

The familiar limb-coupling features are a real advantage when you pack in for hunting or for any kind of traveling situation. It fits neatly into Wing's sturdy carrying case.

Look at the flexibility you have all in this one bow! The short handle with 58" limbs for hunting . . . a set of 64" or 66" limbs for hunting and field use . . . and for peace in the family—a 58" hunting bow for you and an extra set of target limbs for her!

The stabilizer insert adapter is built-in. The 58" limbs come in black glass and the longer sets in white. All of the limbs and the handle are fully interchangeable with the long handle PRESENTATION II, and its three sets of limb combinations.

### PRESENTATION II HUNTER \$195.00

Lengths: 58", 64", 66"  
Weights: 58" up to 60 lbs. (black glass); other lengths to 50 lbs. (white)

Draw limit: none  
Fistmele: 8½"-9½"  
Riser: black bowflex, with rosewood and an ebony and pearl white cap

Glass color: Black for 58" length on short handle and 62" on long handle. All other lengths in white

Carrying Case \$39.95

## Thunderbird

Here's a black beauty for the man with special tastes. The handle riser is high compression bowflex to give it plenty of mass weight. It comes in a 52" length ideal for the hunter who wants real compactness for tight situations, and in a 62" length for the hunter who likes the feel of a long bow and the added accuracy of a sight window. Many of its design refinements are inherited from the PRESENTATION II hunter. The THUNDERBIRD'S action is smooth and there is no question about its power.

### THUNDERBIRD \$89.95

Lengths: 52" and 62"  
Weights: to 70 lbs. at 28" draw length  
Draw limit: none  
Fistmele: 8½"-9½"  
Riser: black bowflex  
Glass color: black

## Chaparral

When you're face to face with a trophy size buck this season, you'll be glad you own this bow. It's a proud, all-new addition to the great hunting tradition Wing bows have set through the years. The CHAPARRAL has many of the features you find in our THUNDERBIRD. The handle is high compression bowflex and African bubinga with a white maple lamination. The cap is black and white with nock overlays to match.

If you're dedicated to this length, you should compare the performance, materials and workmanship found in the CHAPARRAL with any other bow in its class.

Length: 60"  
Weights: to 70 lbs. at 28" draw length  
Draw limit: none  
Fistmele: 8"-9"  
Riser: Black bowflex and African bubinga with white maple lamination. Cap of ebony black and pearl white  
Glass color: black

### CHAPARRAL \$79.95

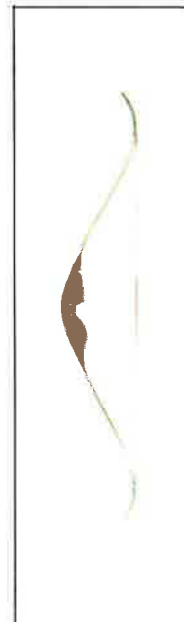

## Red Wing Hunter

They're still trying to copy this . . . the most famous hunter of them all. The something of the Daniel Boone in

bow. It has no frills. But the RED WING HUNTER has made history on the game trails of the world. The handle is shedua. The length is 58". It's light on the draw. Smooth on the release. You can pack it into tight places. Or shoot out of trees. Once you've tried it—you'll understand why so many hunters have nothing but praise for this dependable bow.

### RED WING HUNTER \$54.95

Length: 58"  
Weight: to 70 lbs. in 28" draw length  
Draw limit: none  
Fistmele: 8½"-9¼"  
Riser: Shedua  
Glass color: brown

RED WING HUNTER

GULL

FALCON

NIGHTHAWK

### Gull

Whether you're an all-around archer, a now-and-then archer, or just getting started—the GULL is a wise investment. If you're learning how to shoot, this fine bow will carry you through the early stages straight into advanced shooting. It's made to order for the archer who wants to enjoy all aspects of the sport at a price he can afford. You'll be proud to shoot the GULL on any range . . . and it performs equally well in the field or on the hunt. It has full working recurves, a sight window and a handsome riser of exotic hardwood. The price is just \$49.95.

**GULL \$49.95.**

Length: 64"  
Weights: to 60 lbs. at 28" draw length  
Draw limit: none  
Fistmele: 8"-9"  
Riser: Exotic hardwood  
Glass color: Brown

### Falcon

If you enjoy archery along with fishing, bowling and a few spectator sports to boot—there may not be as much left in the family budget as you would like. The FALCON is the answer to your problem. This bow gives you the real feel of archery with full working recurves and a form-fitting handle. The exotic hardwood riser and colored glass, wide overdraw and full-center shot window are features you normally expect to cost more than \$34.95.

**FALCON \$34.95**

Length: 62"  
Weights: 20 to 50 lbs. at 28" draw length  
Draw limit: none  
Fistmele: 7 1/8"-8 1/2"  
Riser: exotic hardwood  
Glass color: assorted

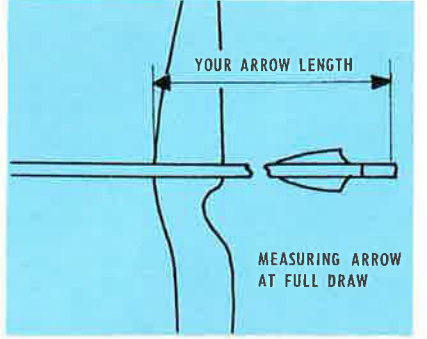

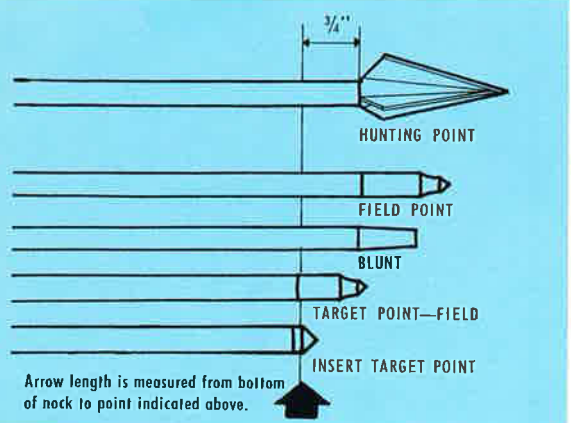

### Nighthawk

Your first bow could be the most important one you'll ever own. That's because it can either send you on the way to serious archery—or it can totally discourage you. The NIGHTHAWK is designed to help you develop technique easily and gradually. Its semi-recurved limbs will help you learn the control required in the draw and release. Its hardwood maple riser and colored glass limbs are features that distinguish this bow from the ordinary. You'll like the price too.

**NIGHTHAWK \$25.95**

Length: 60"  
Weight: 15 to 35 lbs. in 5 lb. increments at 28" draw length  
Draw limit: none  
Fistmele: 7 1/8"-8 1/2"  
Riser: hardwood maple  
Glass color: assorted

## ARROWS

### "The Choice of Champions and Bowhunters Alike"

In bowhunting or tournament shooting extreme care should be taken in selecting of your arrows. They are the most important part of your archery equipment and mean the difference between a hit or a miss. Consistent shooting of close-groups cannot be done without arrows perfectly matched for your bow. Whether you choose the finest, mirror-smooth cedar shafts, beautiful rugged glass or the highest grade aluminum arrows, WING gives you the very best. Thousands of the finest cedar, glass and aluminum shafts are kept on hand at all times enabling us to select perfectly matching arrows time after time. Highest quality is assured with the latest equipment. Each arrow is electronically matched, precision fletched and beautifully crested. The workers at WING are all skilled craftsmen that take great pride in their work. This *quality craftsmanship* is yours when you select WING arrows.

#### How to choose the correct arrow for you.

There are several generally accepted methods of measuring the proper arrow length for an archer. Of these, we at WING feel there is only one reliable, accurate way that gives the correct arrow length every time—this is by DRAWING A MEASURING ARROW in a bow. Where the arrow comes in relation to the back of the bow determines the correct arrow length (see drawing). Arrow lengths will vary depending on the type of point used. Refer to CHART to determine your correct arrow length. When ordering arrows, specify bow weight, the type of arrow and your draw length.

**WING HAWK \$108.00 per 72**  
This is Wing's Special \$1.50 Hunting Arrow, ready to use with single-blade Razorhead® attached. Spined at 45/55 lbs. with overall length of 29" to back of head. ### How To Order

Wing orders are filled with all care and speed possible. To avoid delays, please check your order carefully before mailing making sure you have furnished all catalog numbers and needed information. Prices are f.o.b. Jacksonville, Texas within U.S.A. for all orders of less than \$300.00. Orders in excess of \$300.00 are shipped f.o.b. destination.

All prices are subject to change without notice.

Your local WING DEALER takes pride in helping you select proper equipment. If no dealer is nearby, write us. **MINIMUM ORDER \$5.00. C.O.D. ORDERS** — All orders will be shipped C.O.D. unless satisfactory credit has been established or full payment is sent with the order. All C.O.D. orders must be accompanied with a deposit of 25% of the total amount of the order.

**RETURNED ITEMS**—Wing Archery Company will not be responsible for any items shipped to the factory, which are not covered by adequate insurance, and then only to the extent of the insurance applicable to said items. A 10% service charge will be made on any items returned to Wing Archery Company for credit.

**IMPORTANT.** Restrictions on size and weight of Parcel Post packages do not apply on shipments to or from our mailing address—Wing Archery Company—Rt. 1, Jacksonville, Texas 75766.

### Bow Guarantee

Every Wing Bow is numbered and accompanied by a registration card which must be filled out and mailed by the Wing Dealer within 10 days after date of purchase. Should failure occur in a bow so registered within a period of 6 months after date of purchase, the Wing Archery Company will make free repair, or replacement if repair is not feasible, unless the bow shows evidence of mis-use or improper handling. The bow serial number must be intact. After 6 months and up to 18 months after the purchase date, and provided the bow has not been mis-used or mis-handled, repair or replacement will be made for 50% of the list purchase price. From 18 months to 36 months after purchase date, the charge will be 75% of the purchase price. No adjustment will be made until the damaged bow is returned to the factory for inspection. Replacement will be made with a bow of the same model and weight, as near as possible. This guarantee is valid only when purchase has been made through an authorized Wing Dealer. Dealers are not authorized to make adjustments, but will be glad to handle shipping and correspondence.
