*'At least 4 billion Useless Eaters shall be eliminated by the year 2050 by means of limited wars and organized epidemics of fatal rapid acting diseases...'* – Dr. John Coleman, CIA

The purpose of this report is to present clear evidence and reference that the COVID-19 is no pandemic but a 'plandemic'. The information that follows is from a Dutch Patent website that chronicles the registered Patents submitted with date stamp corresponding. This has also been discovered how in other venues, the ordering of mass amounts of masks was procured in 2017 as well. It is strongly suggested that the Power-That-Be have been orchestrating this worldwide lockdown and release of the variant that have been in a long series of bio-engineered warfare upon Humanity. There have been the Mad Cow Disease, the Swine Flu, Bird Flu, H1N1, MERs, Ebola, and the attacks are relentless. It has been up to this point in time that they have perfected their operations as all the pieces have been in place to coopt the media and government officials with a supposed 'killer virus' that was doomed to kill millions.

It has been a psychological operation in deceiving the entire world of a virus no worse than the seasonal Influenza with a 90% recovery rate and lower death rate than some other types of diseases that are real. If at this point in the writing, not more than a total of 3 million people around the world have died of COVID-19 supposedly, it is out of a population of nearly 8 billion. This death rate amounts to 0.00037%. This is not a pandemic. One can thus only conclude based on this and other evidence that the 'pandemic' was to justify the goal of inoculating every human on the planet with this mRNA new Gene Therapy shot. It is not even technically a 'vaccine'. The definition of a vaccine has 3 components. It has to treat the disease; it has to prevent the disease and it has to stop the transmission of the disease.

The new mRNA does not do this as it is not designed to do that but to deliver a 'code' by which the DNA of every cell in the body now produces the 'vaccine' to fight off a given disease. The problem? This process is 'hacking' the natural Immune System that is best designed and created to fight diseases. This whole new Gene-Therapy is a cheap imitation of the human Immune System that seeks to bypass it replace it as the primary source of a body's Immune System. The problem? Once the mRNA codes are infused with the body's, it becomes permanent. And if at a future point in time, a real disease or variant Corona Virus does attack the body, the body will be attacking itself as it has essentially become a virus unto itself. Following is the page found online of the Patent for COVID-19 Test Kits back in 2015 when there was no such thing as a COVID-19.
