

Cataract / Eye Procedures:

Clothing: wear a button down shirt or V-Neck so we can open it to put the EKG patches on otherwise we will need you to change into a hospital gown.

Take your eye drops as directed until you get to BSA.

For eye procedures do not eat or drink anything after 10 pm the night before your surgery.

The pre op phone nurse will discuss which medications to take or hold at the time of your call.

For diabetic patients you may have slightly different instructions.
