

Infant/Toddler Activity Plan

Child's Name: _____

Primary Caregivers _____

Please write your child's normal pattern of activities between drop-off and pick-up including sleeping and eating with approximate times below. We will do our best to follow it understanding that the times may vary due to the child's or group's needs. Diapers are changed at least every 2 hours. Cribs are only used for sleeping.

Our developmentally appropriate curriculum activities (posted each week) will be done with the children throughout the day and we go outside daily as weather permits. Thank you!
