I truly appreciate your prayers and selfishly, I will ask for more!! I will be going for 1-2 possible surgeries. Tomorrow, I will be having two holes placed in my back so "sensors" or probes can be inserted. It all goes back to my fall when I was assigned to DIA, resulting in my early retirement. If after 7 days, the probes give the surgeon necessary info. She will schedule the second surgery, please pray! Thank you so very much! I will update you after, I'm sure with news that prayers are answered!

Thanks again so much!!!

Information re Michael Chaffin's second Procedure for Cancer, January 28, 2026 Thank you to everyone for prayers. Things are looking up. After the second procedure the Doctor believes the last 25% of the Cancer and its satellites have been removed. Now after six weeks of Chemo there will be testing to see how things are.

Thank you, Sgt. Retired Mark S Chaffin,
