

# THE AGE OF GENTILES

## MENORAH PATTERN OF CHURCH HISTORY

The purpose of this illustration is to suggest that the current Feast of Pentecost typology is not over nor fulfilled yet prophetically. The prophetic Feast will be compared to the Menorah pattern to ascertain the prophetic pattern of the notion of 7's, Biblically speaking as it relates to the 7 main Feasts of YHVH. Precisely, the 7, 70, 777 numerical factors will be compared to the 7 Feast of YHVH for possible prophetic patterns and correlations with respect to a possible convergence of how the Church Age is to conclude accordingly. The context and backdrop of such a study will be considered speculation to see if such variables might present numerical clues as to when the prophetic 'Parenthetical Age' of Pentecost will end, as it began, an 'intermission'. This Pentecostal 'intermission' period is consisting of the *Church Age* and

21 DAYS

This illustration supposes that the *Church Age* is the present state of YHVH's dispensation prophetically concerning the *Plan of Redemption* will conclude as a 'harvest' type to culminate in the resurrection and Rapture of the *Bride of Christ*. Many understand also that the *Church Age* period corresponds to the 4th feast of YHVH, Pentecost.

However, this pattern suggests that the *7-Church Age Period* will not end at a Feast of Trumpets, the 5th arm of the Menorah typology as many purport. Trumpets is when Jesus returns. There appears to be a basic prophetic template concerning the Menorah pattern and numerical coefficient of the 7s in that YHVH is presently utilizing the 7-7-7 menorah template concerning the *Plan of Redemption* that as a 'vine' and 'tree' typology, the Gentiles from among the nations have been grafted in.

This Menorah pattern is consisting of an encrypted 7-7-7 numerical sequence and prophetic 7-day pattern of YHVH's 3 main Feasts of Passover, Pentecost and Sukkot that this study suggests also has the key to Jesus' 1st coming, present tense 'coming' and when He will be coming, future tense.

This pattern considers that this present Pentecostal period of a 7x7+1 or '50' type or coefficient has to do with beginning but also with the conclusion of the *Church Age*. This 'Age' has been in the present tense, operating to reveal and execute YHVH's *Plan of Redemption* since the 1st Pentecost.

Psalm 118:27

The LORD, He is GOD and He has given us LIGHT.

The 153 numerical coefficient is noted in that the direct connection would thus correlate to the 153 Disciples that were present when such received 'Power from on High' to be *Witnesses or Ambassadors of Jesus Christ* and began the *Church Age*. The question of this study thus is asked, could this present 'Last Generation' see the conclusion of such a prophetic Pentecostal Pattern based on the template of 7's, 70s and 7-7-7? Realize that based on the 7, 70 and 777 template and patters of prophetic typology, 1948 years from 70 AD, when the Temple was destroyed on the 9th of Av corresponded to the year 2018. Conversely, the year 2018 is the 70th year anniversary of Israel declaring independence on May 14, 1948 that coincidentally was Pentecost on the Creation Calendar.
