

As you know, it was with heavy hearts that the Board of Directors for the Pregnancy Options Center postponed the March 19 2020 Banquet for Life. Out of care and respect for our most vulnerable guests, the POC Board of Directors chose to honor the CDC recommendations as well as state and county mandates.

The annual Banquet for Life supplies a large portion of the funds necessary to keep the center in operation. We plan to reschedule the banquet as soon as possible.

In the interim, the program along with testimonies has been recorded and posted online. We encourage you to view it by clicking this link

Prior to the Covid-19 crisis, the POC Board of Directors unanimously agreed to expand our lease agreement to include the additional space within the suite we currently occupy in response to the growing number of walk-ins and need for reunification classes ordered by the Division of Family Services. The remodel of this additional space was launched at the beginning of March in anticipation of receipts from the banquet.

Throughout the Covid-19 crisis, we have continued serve our clients. The Pregnancy Options Center remained open “By Appointment Only” for clients needing access to pregnancy testing, ultrasounds, and material supplies, like diapers. For many of our clients, we switched to using [BrightCourse](#) online instructional programs similar to the Earn While You Learn curriculum as well as hosting virtual meetings with clients through Zoom.

Attached you will find a list of Platinum, Gold, Silver, and Bronze level Sponsors who along with area churches that have continued to support the Pregnancy Options Center during this difficult time. We urge you to support the organizations that have faithfully supported the Pregnancy Options Center of Warren County.

Your prayers and your support are greatly appreciated!

Sincerely,

J Chowning
