OPTIONAL

PARENT REQUEST for INSECT REPELLENT APPLICATION DURING HIGH EEE RISK

Name of student: _____ DOB: _____

Grade: _____ ALLERGIES: _____

I request school personnel apply insect repellent to my child once a day prior to outdoor activity until the EEE risk level has been lowered by the Massachusetts Department of Public Health.

I hereby release and hold harmless All Saints Academy, any and all its employees from any and all harm arising to my son/daughter as a result of this request.

Date

Please remember the following recommendations:

- Schedule outdoor events to avoid the hours between dusk and dawn, when mosquitoes are most active.
- When you are outdoors, wear long pants, a long-sleeved shirt and socks. This may be difficult to do when the weather is hot, but it will help keep mosquitoes away from your skin.
- **PLEASE APPLY INSECT REPELLENT PRIOR TO SCHOOL EACH DAY.**
- Use a repellent with **DEET** (concentrations of 30% or less for children over 2 months of age), **permethrin**, **picaridin (KBR 3023)**, **IR3535 (3-[N-butyl-N-acetyl]-aminopropionic acid)** or **oil of lemon eucalyptus**.
- Repellents with 30% DEET provide 1 ½ - 5 hours of protection. Most children will be covered for recess (11:15am -11:40am) and will not require an additional application if the repellent is applied at home before school.
- Please send in the repellent you would like us to use in its original packaging, in a Ziploc bag, clearly labeled with your child's name and grade.
- Know that any and all repellants will be applied outdoors, so as not to adversely affect anyone with a respiratory condition.
