

GATES OF THE HEAVENLY PARADISE III

In this rendition of the expanse in-between the Golden Gate and the Silver Gate in the Cosmos, the 2 prominent Sentinels of Ophiuchus and Orion are still the respective 'Keepers of the Gates'. However, if one reverses the phi ratio proportions in the opposite direction as it was with Leo on the Ecliptic, the fulcrum centers on the Cross of Centaur. More precisely the edge would correlate to the Star Rigil Kent. The outer edge of the phi ratio fulcrum would correspond to the area that depicts the Southern Cross with its major Stars of Gacrux, Mimosa, and Acrux. Such a depiction is just another facet of how the Heavens declare the Glory of YHWH and how it foreshadowed the Cross of Calvary. What this study also seeks to investigate and correlate is the notion that the Celestial Gate-to-Gate theory is a divine pattern.

COSMIC CRUCIFIXION

This prophetic picture in the Heavens denotes that one can only join this Company if one is following Christ Jesus, the Greater Joshua. Only in Jesus is the Resurrection Power and Eternal Life found, that which was lost in Paradise on Earth. Jesus is as Orion, the type of Joshua that is leading, as it were the Children of Israel through the Wilderness to the Promised Land.

This is the motif of the Overcomer following the Conquering Hero, Jesus, whose name is Hebrew is Joshua and is the Captain of our Salvation that leads the Bride of Christ in a procession back to the Garden of Eden and soon to restore the Dimension of Paradise on Earth as they are in Heaven.

The Celestial Procession is that of the Greater Joshua, Orion as in Jesus that confronts the Luciferian All-Seeing Eye. This Masonic motif represents all that opposes and is against all that is of the true Christ, Jesus, GOD the Son. It is Jesus who has come, is and will come to rescue the Bride of Christ as with the captured Pleiades. It is a picture of Eve being deceived and bound by Lucifer since the Garden of Eden.
