

Residential Tree Care

For Homeowners in the Pecos vista we would like to offer our professional tree trimming services to you. We have scheduled your community tree work for **July** of this year. If you are interested in having your trees professionally pruned for a reasonable price, please contact us via e-mail or phone and we would be happy to provide you with a free quote. Upon approval of the written proposal, we will contact you prior to trimming to arrange a date and time of that works for you.

- Contact us prior to **June 30th** and get trimming booked at a reduced rate

Example of Palo Verde after crown cleaning

Experience the difference of healthy, correctly pruned trees.

Providing decades of beauty and enjoyment, trees are one of the most valuable assets in your community and home. Properly caring for these complex organisms requires specialized equipment and training. Clean Cut Arbor Management is a proud member of the International Society of Arboriculture (ISA). Our full service tree division provides;

- Tree trimming
- Pruning
- Tree Removal
- Stump Grinding
- Cabling
- Fertilization

Crown Cleaning

Crown cleaning is the removal of dead, dying, diseased, crowded, rubbing, and structurally unsound branches. It will reduce the risk of branch failure, improve plant health, and enhance the appearance of trees and shrubs. A high level of skill is required for crown cleaning, yet the cost for this very sound type of pruning is comparable to that for harmful methods of pruning (topping or lion's tailing!)

“Do Not Let this be your property!”

Annual tree inspections and necessary trimming can help prevent storm damage.
