Key Features

4 Light Cycle Settings

You can choose from 4 unique settings: Flash, Strobe, Fade or Smooth.

Strong Adhesive

Underglow has a strong adhesive backing, allowing you to stick it to most surfaces.

Up to 16.5 Feet in length!

With extension kits Underglow can support up to 16.5 feet (10 strips) on one power supply.

7 Different Brightness Levels

Both Warm White & Cool White LED strips have 7 different levels of intensity.

15 Different Colors

The Multicolor RGB LED strips support 15 different colors, as well as white.

Clip to Fit

Clip Underglow to the size you need. Set it to 90 degree angles, T's and more with clip connectors!
