- Deaf, hard of hearing callers, or individuals with a speech disability
- A caller who is unable to speak due to a medical or other condition
- Emergency situations that would put the caller in danger if making a voice call
- Examples include abduction, domestic violence or active shooter situation

When texting to 911, follow these guidelines

- Explain the type of emergency or help that is being requested
- Be prepared to answer any questions that the 911 telecommunicator texts back.
- Use plain language; do not use abbreviations, symbols, emoticons, or photos.
- Messages should be brief and concise

Texting 911 can be done by typing "911" in the field for a phone number. No other numbers need to be used. Texting should be done through your wireless phones text messaging service and not from a third party texting applications. Text-to-911 does require an active telephone service plan with data or it will not work.
