

THE RAPTURE ZONE

END OF THE CHURCH AGE

Possible Year of the Evacuation Study

'See what great love the Father has lavished on us, that we should be called Children of GOD! And that is what we are! The reason the world does not know us is that it did not know Him. Dear friends, now we are Children of GOD, and what we will be has not yet been made known. But we know that when Christ appears, we shall be like Him, for we shall see Him as He is. All who have this hope in Him purify themselves, just as He is pure.' -1 John 1:1-3

The purpose of this study is to map-out the year 2021 with the major Feasts of YHVH along with the main astronomical occurrences. It would appear that there are some unique alignments, conjunctions and eclipses to occur. Foremost, the timeline presented will seek to calculate what 'season' or timeframe will be best for 'Rapture Zone' in 2021. This is if the Rapture event will take place in 2021. This 'zone' will be predicated on the following assertions based on one's personal understanding, study and interpretation of the various key Rapture verses. The Rapture event has to occur prior to the advent or debut of the coming false AntiChrist Israel will accept, 'In his own Name'. The Rapture event does not 'immediately' start the Tribulation Period.

There will probably be a gap of time that is undeterminable but could be between months if at the most 1 year before the Tribulation Period clock starts. The Tribulation Period is 7 Biblical Years of 360 days and will coincide to sync with Daniel's 70th Week of Years, yet to be completed. This 70th Week of Years might very well coincide off the cusp of the 70th-year anniversary of when Jerusalem was declared Israel's capital in January of 1950, making 2021 the 70th year completed. This study suggests that the Tribulation will have to start at the beginning of a 7-year Sabbatical Cycle. This is predicated on the notion of the Jubilee Year counts and that the next cycle to start begins in the year 2022. Thus, if the Tribulation Period were to start, the cycle of 2022-2029 would have to be 'it' or it would have to wait until 2030 to begin the next cycle.

The year 2022 Sabbatical Cycle marker is thus predicated on 2 time pieces in history that can be now calculated and observed. The first notion is based on Jesus' birthday at His 1st advent. This date has been calculated to have been on September 11, -3 BC. And that it was on the Feast of Yom Teruah or Trumpets. The 2nd time piece is based on the resynchronization of knowing when is the true Jubilee Year. This study suggests it is based on Jesus' reading of Isaiah. This was when Jesus stood-up to read at the Synagogue at Nazareth and, 'Proclaimed the Year of the LORD in their hearing'. Thus, based on Jesus' birthday, this date would have been Yom Kippur in the Fall of 28 AD. Based on these 2 dates, one can then triangulate the Jubilee Year pattern. If done so, it would then appear that the Sabbatical Cycles do 'line-up' with the coming 2022 year.

Revealed Resets

These known variables then, from there do give one a sequence of when such 7-year Sabbatical Cycles begin and end now. Why is this important? This possible time sequence can give one the sense of when YHVH will 'move' in terms of prophetic history and time. This researcher believes that 'prophetic time' is based on this 7-year Sabbatical Cycle since Creation as it was given as the template via the Creation Week of 7 days, etc. Has there been any evidence of this Sabbatical Cycle sequence in play and how events have occurred that might seem 'prophetic' or Biblical in nature? Yes. If one just backtracks since 2001, the recent memory of most people in the world would agree, without a shadow of a doubt that world-changing events occurred on precisely these 7-year intervals of 2001-2008-2015. The next sequence to start will be in 2022.

Notice that primarily, such time markers have dealt with the financial world markets but realize that such events have affected nearly every human on the planet and with good reason. The planned implosion of the 'world economic system' is set to occur so when 2022 rolls around, the New Economic World Order 'Reset' will be in place and in play. As it has been said, 'Money is what makes the world go around'. One is assuming a globe model here but realize that money and medicine is how the coming AntiChrist will ultimately control every human being and body on Earth. What one is seeing now with the unconstitutional and unlawful lockdowns around the world with less than a million dead in a world population of 7+ billion people is no pandemic, it is plandemic. The Globalists have used this bio-engineered weapon against the world. It is a well multifaceted approach to eventually subjugate everyone into an Orwellian 1984 world.

What has stood primarily in the way of the Globalist Cabal, geo-politically has been the USA, primary a Populist type of USA. Now that the USA has been finally co-opted, there will be a freehand in the implementation of the coming worldwide governance. What would be so wrong or alarming about that? What could possibly go wrong? Everything. But in terms of the Rapture Zone for 2021 speculation, the timeline presented will plot the 7 main Feasts of YHVH. The calendar used will be the Rabbinical for reference. One realizes that there are cases where a Feast will have several day discrepancies, like when using the Torah Calendar or the Western Gregorian in comparison. So, from the outset, the dates suggested will be purely conjecture and not concrete in their calculation, but more so based on the best educated guess for the year 2021.

The next piece of evidence for the Rapture Zone is the theory that, if the Rapture event is to occur, that the Season of Pentecost would be most appropriate. This rationale is taken from many typologies and the very words of Jesus of how the End of the Age is like and will be like a 'Harvest'. And that the type of Harvest will be a Wheat Harvest. Jesus gave clues as to a 120-day countdown that, if given around the Spring Equinox, would put the Wheat Harvest season in July. This is when the Wheat turns 'white' and becomes 'ready' for harvesting. There is also the type found with Boaz and Ruth of a Summer Wheat Harvest and then a Marriage Celebration. The subsequent piece of evidence of the Rapture Zone being from May to July in 2021 then is predicated on the theory that Pentecost has a mirrored count. It involves 7 Sabbaths or 49 days counted first, then a count of 50 days comes after. This is how one is interpreting Leviticus 23.

Signs of the Spirit

This double-count would reconcile the mysterious phrase that the Writer, under the inspiration of the Holy Spirit called when the Sealing of the Holy Spirit came upon Believers, on that day, 'When Pentecost fully came'. This clearly implied a start to a Pentecost having a duration of time counting to when it was then completed. Pentecost, or Shavuot is traditionally a 2-day celebration. There would have been no need for such a phrase or statement to be said that way, as the 2-days would have been but a brevity of time. As other Feasts of YHVH are only days apart, no such phrase is ever used. One is saying that this phrase is unique to Pentecost and perhaps it is a clue unto itself that Pentecost has a duration of a 'double time'. It would thus corroborate the interpretation of Leviticus 23 as being a double count. This theory has been presented in prior studies. The following is the rubric of the Major Feasts of YHVH for 2021.

One Astronomical Sign that could be a time marker in itself was the Revelation 12 Sign that occurred on September 23, 2017. What many have not factored-in is perhaps the 1260-day count that the Sign is associated with from the book of Revelation. How so? It is implied and inferred that the Sign occurs right at the 'midpoint' of the 7-year Tribulation Period. This is when the actual fulfillment of the Sign is to occur. But what if that has also been given as a template that is to echo a countdown? To what? The Rapture event as that is what the Revelation 12 has at its core, a clear depiction of a Rapture. Now, there is debate as to who and what that Man-Child represents or will. But on this side of the Rapture, perhaps the 1260-day count is inferring to the year? If so, the Rapture event would then occur after March 6, 2021. And it does appear that the year would be in sync with the following other timeline pieces that appear to suggest the same. Pentecost is determined by when Passover starts but depending on when it falls within the week, the counting from the day after the Sabbath can vary from year to year.

Double Time

One factor in the calculating Pentecost is that regardless of when Passover occurs, the count will always start from a Sunday. In contrast, the Rabbinical Jews count Shavuot from Passover altogether as a 'Counting of the Omer' or at least it is how they interpret the calculation to Shavuot. However, this method is not prescribed in Leviticus 23. Thus, based on one's interpretation of Leviticus 23:16 counting, the day after the Sabbath, a Sunday, after the Sheave Wave Offering, that is Unleavened Bread would be April 4th in 2021. So the count would start then from April 4, 2021 + 49 days will be May 23, 2021. Note that this will be 2 day difference from the official Rabbinical Shavuot or Pentecost of May 16, 2021. The following are the astronomical occurrences for 2021.

2021: ASTRONOMICAL OCCURRENCES

1. Jan 11:	<i>Jupiter-Saturn-Mercury alignment</i>	<i>Capricorn</i>
2. Feb 05:	<i>Saturn-Venus conjunction</i>	<i>Capricorn</i>

Shavuot will be 2 days out from the 73rd year anniversary of Israel's birth since May 14, 1948. But if one then applies the double-count theory of adding then the extra 50 days per Leviticus, May 23, 2021 + 50 days will be July 12, 2021. This then is what would one suggest is the speculative range of time that would constitute the 'Rapture Zone', if not the date. So the zone would be from May 23 to July 12 for 2021. But again, having a 1-2 day tolerance, assuming the correct calendar and assuming it is the year. As noted, 2021 is the last year of the 7-year Sabbatical Cycle of time. Meaning that 2022 starts the subsequent one and if any major prophetic world-changing event is occur, it would most appropriately have to occur in the year prior. Why? This is how 'prophetic time' is marked by YHVH. Of course, this is just a theory and subject to an actualization of it.

Astronomical Aspirations

What is also unique about this 'Rapture Zone' timeframe is that it is in approximate phi ratio to the Summer Solstice of June 21, 2021. Then the 2 eclipses occurring within the zone, both the Wedding Ring and the lunar eclipse are in phi ratio, of time to the Summer Solstice. One wonders if the predictive programming in the Globalist art displayed of the Bank of America headquarters in the USA is indeed signaling this 'Rapture Zone' scenario. In one art piece, it shows the Wedding Ring of Fire type of solar eclipse occurring. Then a woman is being 'raptured' up within a Tesseract as the world below is turmoil in another. The other mural adjacent depicts the 'Raptured People' enveloped in doves of fire, as in Holy Spirit perhaps? And this Rapture event is taking place while down on Earth, a quarantine, hazmat suited military is dealing with chaos. Just like it is presently with the manufacture plandemic.

*Reasons why 2021 Rapture Zone is promising: **May 23, 2021 - July 12, 2021***

- 1. Flurry of Jupiter-Saturn-Planetary alignments in Capricorn alluding to a coming slaughter.*
- 2. 1260-day Prophetic Shelf Life of Revelation 12 Sign indicating year of Rapture.*
- 3. Cryptic 120-day count by Jesus to a Harvest end time from Spring Equinox.*
- 4. Leviticus 23 double-count interpretation of a 49-day + 50-day count.*
- 5. Wedding Ring Solar Eclipse in-between horns of Taurus highlighting the Pleiades.*
- 6. 7-year Sabbatical Cycles that converge by ending in 2021 and begins in 2022.*
- 7. A 2520-day count from Shemini Atzerets of October 18, 2022 to September 11, 2029.*
- 8. From Great Conjunction of December 21, 2020 to Shemini Atzerets is exactly 666 days out.*
- 9. Mirrored pattern of Jesus' advents to be on Yom Teruah, Trumpets and on a 9-11 day.*
- 10. Jubilee Year synchronized and realized on Yom Kippur of 28 AD by Jesus.*
- 11. Worldwide plandemic and capitulation of last Superpower, the USA -compromised.*

A Tesseract is the 3-dimensional core of a double-tetrahedron. It is a 'Star-Chamber' in which one can be transformed, transported within dimensions. In the esoteric circles, this is a 'Key' or vehicle of transport called a 'Merkavah' or 'chariot'. Think of Elijah being swept-up by the Fiery Chariot or the 'Celestial Limousine'. This is also how the Fallen Angels, demons and those who practice the fallen magic arts use to conjure up such entities. So, question, could the Rapture event then be tied to an astronomical occurrence, and in tandem to the time of an Annual/'Wedding Ring' type of solar eclipse time correspondence? As noted, this 'Rapture Zone' has some unique astronomical occurrences happening during this time. There will be a Blood Moon on May 26 in Scorpio. Then there will be several planetary conjunctions in Taurus and in Leo.

Then the Annular solar eclipse of June 10, 2021 will occur in fantastic fashion in-between the horns of Taurus. This solar eclipse is an Annular type so it means it will show the outer ring to give it a 'Wedding Ring' or Ring of Fire effect. Is this the 'celestial gesture' of the Groom to the Bride just before the Rapture event perhaps? Of note, from the June 10, 2021 Wedding Ring solar eclipse to the speculated date of 'When Pentecost fully came' of July 12, 2021, the possible Rapture day, is 33 days including end-date. Will this number prophetically be significance? Perhaps but that is yet to be determined. Nonetheless, if the July 12, 2021 is the day, thereabouts that, 'When Pentecost fully came' and is the mirror half of the Spring and Fall corresponding Feast of YHVH, then it will be the highest watch time to observe for 2021.

Tribulation Time

What this potentially can mean is that the Church Age is to conclude in 2021 and indeed 2022 would be the start of Daniel's 70th Week of Years. Consider that what actually starts the Tribulation Period is the commencement of the Daily Sacrifices. This is the factor and equation one must use in calculating the time sequence based on both books of Daniel and Revelation. There is a 1260-day count, but like the Pentecost 'halves', there are 2 sections of them. How does one know this? It is because of the language that the Scriptures clearly point to a midpoint from when the Daily Sacrifices were initiated but then 'cut off'. What the timeline then could also infer is that 'Prophetic Time' is occurring based on the 7-year Sabbatical Cycle. And this, based on Jesus' 1st Advent that occurred on 9-11, -3 BC. Question? Would His 2nd advent also likewise occur on a similar day and Feast of YHVH?

If this timeline is plausible, then yes. Consider that for 2022, Shemini Atzerets occurs on October 18, 2022. If one then adds the 2520-day count, of 1260 being doubled, the end date will be on Yom Teruah on 9-11, 2029. Will this thus be the conclusion of the Tribulation Period and the return of Jesus as when He precisely came? That remains to be seen but the timeline presented seems to indicate this scenario and day count. On a side note, a Reader, Jason Hearon discovered this other interesting day-count from the Great Conjunction of December 21, 2020 to the presumed 'start' of the Tribulation Period on Shemini Atzerets. Amazingly, the date will be exactly 666 days out.

Also consider that from the Rapture Zone, past the July 12, 2021 date to October 18, 2022 is nearly 66 weeks or 1 year and 3 months (13). This would give the Luciferian Globalist Cabal just enough time to align all the Nations, now that the USA is/will be in their fold thanks to the newly installed Marxist Democratic Administration. Also, the 3rd Temple could be constructed and consecrated by then. Meaning? That on October 18, 2022, on Shemini Atzerets, that would be then the first day the Daily Sacrifices could be offered; hello Tribulation Period. With the lockdowns being extended and governments becoming absolutely totalitarian, the Dark Forces have gone all out in now implementing their final endgame protocols.

It has been an easing-in to the conditioning that is both a psychological warfare and a spiritual one. But what is keeping the Luciferians from totally rounding-up the 'resisters', the 'vaccine-deniers', Patriots, Constitutionalist, Conservatives, Christians, or others from being hauled to the FEMA Concentration Camps, in the case of the USA, is the Restrainer. One believes that after the Rapture event, no such force will exist and then what one sees in the movies like 'Greenland' will actually come into play. This sentiment was confirmed when one got a chance to watch the movie 'Greenland'. It was basically '2012' (2.0). But a very interesting statement was made; they said, 'FEMA Camps'. Yes. One had to do a double-take and confirm what one heard and yes, they said that. No conspiracy any more.

They are now predictive programming the masses and world for such a coming condition. Due to the COVID forced lockdown, governments around the world have now introduced forced relocation protocols for their citizens. In the movie, of course, in comparison to the utter chaos, mayhem and lawlessness of sheer panic and dread happening outside, inside the FEMA Camp was well organized, peaceful, order and its Staff where smiling, professional good looking, well dressed, calm cool and collective. They had all the answers and equipment and resources at one's command. They worked to reunite family, missing members and provide medical treatment and food. What could possibly go wrong?!

Was all this not also promised to the Jews by the German Nazis before World War 2 broke out? Take note that in the USA, the laws for medical detention were already written way before the lockdowns began back in March of 2020. For example, in the USA, the Governors were then instructed to designate all public meeting places such as school and/or University Recreation Centers and dormitories for such purposes of mandatory/force quarantining all those not willing to get the vaccine. It will eventually come to such a day that one will not have a choice to just opt-out altogether, even if one refuses employment or may be fortunate to be financially independent.

No, such people will be deemed a 'menace and danger to society' and will be forcibly removed and eventually eliminated from the new 'Reset'. In summary, one has to have a disclaimer that one is not setting a 'date' for the Rapture event. But that based on the template, typologies and patterns presented, this is what it renders. One can speculate on a 'Rapture Zone' for any given year and that is what this study has presented for 2021. One does not want to be accused of being or labeled a 'Date Setter' as that is not what one has done or does with such studies. One has always only offered theories and hypothesis of possible End Time sequences/scenarios that are pegged to mainly Astronomical Signs/occurrences in the Heavens above and geo-political events on Earth below. If the theories or hypothesis prove to be incorrect, then they are.

One is not necessarily seeking to know when the 'Rapture Day' will be as that is not knowable nor what was instructed of the Body of Christ to be calculating other than to be faithfully watching for the day as it approaches. This is for sure but perhaps the Body of Christ will not know that day or year until the very day or year or hour. Consider the Hebrews and all those tagging along with them in Egypt during the Exodus. They all did not know of their 'Evacuation' until the very night, at midnight after the 1st Passover. Perhaps it will likewise be that for the 'Exodus' of the Bride of Christ from this 'Egypt' world full of false Gods, that Christ Jesus will be leading His people out in similar fashion. And the Church Body will not know until the very last moment. Until then, as far as 2021 is concerned, a possible 'Rapture Zone' is presented as a possible scenario or should it be the, 'Danger Zone' for even suggesting it?
