

Greetings fellow insurance industry victims!

After the needless waste of 13 of our finest during inept Squinty's retreat from Afghanistan, I thought maybe that I should pull back a bit out of respect to our fallen heroes. That was my plan for a couple of days and then my anger kinda took over so here we are. After watching Befuddled Squinty Man read his press releases to us and lie to George Stephanopolis (these were whoppers extraordinaire), I'd say he still has his perfect record pointed out by Robert Gates that Joe Biden has been on the wrong side of every foreign policy and national security issue during the past four decades. Quite an accomplishment and still going strong! Who in their right mind pulls out all of the security forces before evacuating American citizens and Afghan allies? Who leaves 85 billion dollars' worth of armaments for terrorists to play with? Squinty says that they're very professional and business like now. Yeah, I've seen that when they cooked people alive in cages and hacked the heads off of citizens they lined up on the beach. Very professional. He's handled this crisis like the border crisis he created. He's not even trying to stop the mass migration. His only concern is how to accommodate the 1.4 million new unvaccinated lawbreakers he's allowed in. Not to mention the influx of drugs, sex trafficking, and cartel members that we now have amongst us. Everything this guy touches turns to turds! I wouldn't let him or Pain in the Pantsuit II plan a Free Parking Day at Walmart fer chrisakes!and this is the guy that we have to wean us off of fossil fuels and into the age of solar power? What could possibly go wrong? Do you really want Squinty in charge of the decision making regarding your new vehicle or motorcycle? Your home heating bills? Come on, man! You may want to brush up on your Russian and Mandarin - just sayin'! His 'no plan' approach to problem solving will be the death of us and America. God help us.

Our September meeting was well attended except for Mimi who was ill. We opened with the Pledge and the RC read the Minutes and the Treasurers' Report which were approved as read. Our Legislative Update was mainly a bitch session about Rep. LaFave and his remorseless betrayal of Michigan motorcyclists. He will do absolutely nothing to help rid us of the \$100.00 MCCA charge or to help us revert to our own auto insurance if we exceed an at-fault driver's medical cap. He can't do anything because, " he only has 18 months left and his insurance committee hasn't met in over a year and nobody in Lansing gives a shit about motorcyclists anyway." Remember that when he runs for the Senate.

UNFINISHED BUSINESS

- A.) Fair tickets and totals were presented
- B.) Report on Bike Night season was given
- C.) Report on new Ore House event was given
- D.) Report on Bald Eagle and UP North Lodge night for us was given
- E.) Report on funds raised at the Return to the Rusty Rail Run was given

NEW BUSINESS

- a.) Reminder and report on progress for the Remembered Riders' Run was given
- b.) Region 4's upcoming 911 event was discussed and plans made
- c.) Next Ore House Bike Show was announced. September 28.
- d.) Family Fun Day was discussed and Barbie and Jean filled us in on all of their progress

Barbie and Jean turned over their proceeds from Kraemer's this year. OUTSTANDING JOB!!! Thank you ladies and Double Trouble!!

We discussed suggestions on how to improve or spice up our Bike Nights. We will revisit this next month with a white board and easel presentation.

Remain vigilant!

Gerry
