

# **GTACC 12<sup>th</sup> Annual Car Show and Charity Benefit Judging Criteria**

Welcome to the car show, we thank you for your participation. The information below is a helpful tool for you to know what our judges are looking for when they come to judge your car.

The Club uses a 100-point scale for all judged classes in our car show. Teams of two judges will judge one or more classes between 10:00 am and 1:30 pm. Please try to stay with your vehicle during judging to assist the judges if necessary; however, it is not required that you be with your vehicle to have it judged.

Your window placard must be placed in plain view on your vehicle's front window or dash board. Your vehicle must have its hood up, trunk open and windows down. If the judges do not have access to the engine compartment, trunk area or visibility to the vehicle's interior, they will have no choice but to deduct ALL points for that particular area.

Participants will be judged in the following categories. The scores are entered into a web-based system and tallied automatically. After each car is judged, a small card will be affixed under the wind shield wipers. Judges will not discuss results or deductions with entrants. All decisions of the judges are final.

## **INTERIOR** (Maximum 19 points)

Cracks in Dash, Condition of Instruments; Condition of Steering Wheel; Headliner & Visor – Condition & Cleanliness; Seats -- Condition & Cleanliness; Door Panels -- Condition & Cleanliness; Carpets, Mats, Floor Treatment; and Overall Appearance – Cleanliness, Detail, Quality of Workmanship.
