Alternate		
Rope or Towel Pull Ups	3 Rounds of 10-12	Try to maintain a grip on the towel and not knotting the towel or the hands to hold

Standing DB Curls AHAP (As Heavy as Possible)	3-4 Rounds	Let the arms hang and stretch each rep and curl to the full ROM and then flex and hold for a count of 4. Begin at a failure rep range of 8-12 reps in the first round. (That means you cannot safely do an 13th rep. If you can do another rep add weight for the next round.) Your last round failure should be when you cannot safely do an 8th rep. (This is accomplished in your 3rd or 4th round.)

## **New Trainees**

Follow **Base** and **Skill** Components

**Power/Strength:** 3-5 Rounds of

8-12 DB or BB Bench Press

NO BP: Do Hand Release or Regular Push Ups or 'Dive Bomber' PU's

Hand Release PU's are standard PU's but when your chest touches the floor pull the hands off the floor for a 2 count and return to the UP, Plank position.

For greater effort do PU's on DB's or anything that elevates the chest off the floor.

Allow the chest to drop below the level of the support for stretch reflex. This will enhance the stress on the chest and supporting muscles to further develop the chest and shoulders.

8-12 DB or BB Curls

This can be done with DB's or Straight Bar

10-20 Sit Ups or Leg Levers
