MATERNAL POWER™ ANGUS BULL SALE  
FEB. 18, 2023  
3 P.M.

### OUR PROGRAM:

We raise Angus cattle that prosper in a no-frills environment. They are moderate-framed, very fertile, easy-fleshing productive cows with good feet, great udder quality and a quiet disposition.

A seedstock source with a no-nonsense, problem-free herd backed with Maternal POWER™ is essential to help ranchers stay profitable.

Each year, we select a handful of proven, balanced-trait AI sires to use in our program. They must have a proven maternal lineage, come from highly productive mothers and, preferably, have daughters in production.

This is not a shoot-from-the-hip breeding program. By taking a balanced approach to genetic selection, we hope to manage our risk and help you manage yours.

### COMMITTED TO OUR CUSTOMERS:

Each bull is backed by generations of Maternal POWER™ and our industry-leading guarantee. As a Strommen Ranch bull buyer, you can take full advantage of our exclusive marketing resources: the Badlands Angus Alliance Female sales in December and January, and our Commercial Female List. Both tools expose our customers' bred and open heifers to potential buyers.

We've built - and continue to build - a strong demand for Strommen Ranch-influenced commercial bred females that can generate a premium for our bull customers. We fully recognize that our future as a seedstock supplier is based on the success of our customers and we will work hard to help you succeed.

**We invite you to attend our 2023 Maternal POWER™ Angus Bull Sale, SATURDAY, FEB. 18, 2023 at the Ranch, Solen, ND.** We are eager to earn your trust, friendship and business.

**Call or text Aaron (701) 290-7983 for a catalog!**

**PROVEN, BALANCED  
COW-MAKERS**  
Our cattle are backed by generations of  
proven, efficient genetics, emphasizing  
calving ease, fleshing ability,  
productivity, udder & foot quality,  
disposition, structure and fertility.

# MATERNAL POWER™ ANGUS BULL SALE

**SALE ORDER** • We will follow consecutive sale book order.

**TERMS AND CONDITIONS** • All animals sell under the standard terms and conditions of the American Angus Association. Terms of the sale are cash. Full payment is due on sale day, unless prior arrangements have been made.

**BASE PRICE** • All bulls will have a minimum price of \$3,000 on sale day. Bidding will begin at the base price.

**BULL DEVELOPMENT** • These bulls have been handled correctly and developed without ANY creep. They have been fed just enough to express genetic differences, but not overfed as to compromise soundness or longevity. We want you to have a bull that will do his job and last for years. We believe our 90-day breeding season guarantee, detailed below, is among the best in the industry.

**EPDS** • EPDs are current as of Jan. 21, 2023.

**SALE TIME & LUNCH** • The sale starts at 3 p.m. CST. Please join us for lunch beginning at 1 p.m. and remain with us after the sale for fellowship and refreshments.

**FEEDING & DELIVERY** • We will keep all bulls free of charge until delivery. Deliveries start May 1st. We ask that you work with us so that we can deliver bulls in the most efficient manner. We offer free delivery within 500 miles of the ranch.

**HEALTH** • All bulls have been on a complete health program as prescribed by Dr. Pat Bierman of the Mandan Vet Clinic, Mandan, N.D. Bulls have been given a vaccination for foot rot and will be boosted when they are fertility tested.

**FERTILITY** • All bulls will pass a fertility exam performed by Dr. Bierman before delivery.

**SIGHT UNSEEN PURCHASES** • If you are unable to attend the sale, but wish to place a bid, feel free to call us and we will handle your bid as if you were here. If you wish to be on the phone during the sale, we will try to accommodate your request. Please let us know in advance so arrangements can be made. We have also partnered with DVAuction to offer online bidding and purchasing options. All sight unseen purchases are fully guaranteed.

**SIRE GROUPS** • For our customers who are looking to put together a set of closely related herd sires, we are offering many 1/2, 3/4 and full brothers.

**LIABILITY** • Anyone attending this sale does so at their own risk. Neither the owners nor anyone connected to this sale, assumes any liability, legal or otherwise.

**DIRECTIONS TO THE SALE** • From the city of Solen, ND, go North on Rice Street for 1 mile. Turn East on 70th Street (just before the cemetery at the crest of the hill) for 3 miles. See page 47 for a larger map.

**DVAuction**  
Broadcasting Real-Time Auctions

We've partnered with DVAuction.  
See page 47 for details.

Videos of the bulls will be available on our website [www.StrommenRanch.com](http://www.StrommenRanch.com)

**GUARANTEE** • Strommen Ranch is very confident that we have developed these bulls safely. They have been fed just enough to express genetic differences, but not overfed as to compromise soundness or longevity. **We want you to have a bull that will do his job and last for years.** It is important to us that these bulls not only perform from birth to yearling, but from birth through breeding. It is with this confidence in our bulls that we can give our full 90-day breeding season guarantee. We understand that these are animals and that injuries do occur, but we have the utmost confidence that we have developed these bulls in the best way to protect your investment. If an injury or death occurs, Strommen Ranch will guarantee them for the purchase price minus salvage value (\$1,500), or we will provide a replacement bull, if a suitable bull is available.

We don't make you take out an insurance policy and add that to the purchase price. We don't have a formula to take away half of the value of the bull if injury occurs. At the same time, these are not 'disposable' bulls. We expect you to care for your investment in your Strommen Ranch bull, so that if a problem does occur, the most appropriate and timely care is taken. If the bull happens to get injured, or you are unsatisfied with your purchase for any reason, we want to know so we can take care of the issue in a timely manner. All injured bulls must be diagnosed by a veterinarian and any claims must be made by Sept. 15, 2023. **We are committed to our customers and your success.**

## *Fertility* IS THE **MOST PROFITABLE TRAIT** IN THE BEEF BUSINESS.

We have the least amount of selection tools for the trait that has the most financial influence in the beef business – **FERTILITY**. Live calves on the ground start with a bull that has enough libido to go out, cover country and service cows and a cow that has enough fertility to settle early in the breeding season. Cows that are bred early in the season have calves with the highest profit potential.

**Unlike other traits, you can't ever select for too much fertility.** Fertility is 5 times more important than growth, which in turn, is 5 times more important than carcass quality. (Martinez, Boyer, et al - 2020).

Shorter calving seasons with selection pressure on early calving cows makes fertility a critical financial driver in the beef cow herd. (Martinez, Boyer, et al - 2020).

Cow longevity – and the traits that influence it – are overlooked and under prioritized in the selection process by many breeders and associations. Not here. We have been selecting for fertility since the beginning. We do not – and will not – overlook these important traits.

The proof is in our pedigrees. Nearly every one of our Strommen Ranch cows are AI-sired, first cycle, for 8 to 10 generations. Nearly all of our cow herd was born in the first 30 days of the calving season.

**Every single yearling bull in this sale is out of the first cycle of AI service. The two-year-olds are from first or second cycle AI service, all from cows that settled in the first 30 days of the breeding season. When you purchase a Strommen Ranch bull, you are getting the bulls that have natural, bred-in fertility.**

# OUR 2023 SALE FEATURES SONS OF THESE POWERFUL, PROVEN BULLS

**BRUIN TORQUE 5261** • AAA 18248293  
CE +6 • BW +2.3 • WW +56 • YW +115 • MILK 26

**S R SILVERADO 083** • AAA 19932195  
CE +7 • BW +2.0 • WW +72 • YW +131 • MILK 24

**BASIN RAINMAKER 4404** • AAA 19932195  
CE +6 • BW +1.3 • WW +60 • YW +108 • MILK 37

**S A V LANDMARK 9148** • AAA 19542356  
CE -1 • BW +2.9 • WW +86 • YW +145 • MILK 6

**SITZ STELLAR 726D** • AAA 18397542  
CE +3 • BW -0.4 • WW +70 • YW +127 • MILK 18

**SAV LANDMARK 9148:** Landmark progeny are massive and powerful on a moderate frame. His sons have as much Angus breed character as any bull we have used and they stand on excellent feet. His daughters are deep, broody-type females that have a maternal look.

**SITZ STELLAR 726D:** This powerhouse individual combines an outcross, proven pedigree with maternal design. Stellar is a thick-topped, deep-sided bull that transmits added substance, fleshing ability and muscle shape. He will improve feet and udder quality.

**O C C WHOLESOME 667W:** We have used Wholesome for a couple years. His pedigree is full of great cows from the OCC program. He ties together, 1019, 664R, 775C, 709V, 1204, and 968G. These are all cows that are the very foundation of the OCC cow herd. We are very excited about the females. When I called Tim to see about a new bull to use a couple years ago, I asked about the best footed bull he would recommend. Without hesitation he said Wholesome and at that time he was 10 or 11 and still breeding cows.

**TORQUE:** There are three things Torque does better than any bull we have ever used – he adds body length, improves udder quality and he stands on a tremendous foot. He works great on those big-bodied, easy-fleshing females that need spine length and extension up front. He improves udder and feet quality, all while maintaining maternal function and power. His sons consistently sell at the top of our sales and we truly believe the best is yet to come with the 70+ Torque daughters we've retained in our herd.

**S R SILVERADO 083:** This moderate-framed, tank of a bull offers multiple generations of Maternal POWER™ for the most discriminating cow man. His productive and fertile Pathfinder dam has settled to A.I. every year and posts BWR 5/94 and WWR 5/109 with a calving interval of 367 days. For docile, good-footed, moderated sized cows that wean a high percentage of their body weight, look no further than Silverado and his sons!

**BASIN RAINMAKER 4404:** He is an extremely balanced bull that ranks in the top tier for CED, BW, WW, YW, MARB and REA. He is moderate-framed and deep-bodied with exceptional rib shape, sufficient muscle, and is very correct in his structure, being free moving and athletic. His outcross pedigree and calving ease suggests that he has tremendous mating flexibility.

4	2.6	66	124	29	4/113

For the fourth year in a row we are starting the sale with a bull that stems from the very powerful and potent Polly cow family. S R Torque 2108 is a full brother to the high selling Lot 1 bull from the 2022 sale. He is a big-hipped, heavy-muscled bull that, if he stays true to his ancestry, will sire the kind of females to make your mouth drool and your bank account overflow: beautiful and profitable! His dam is an up-and-coming donor that is making her mark here. She is at the top of her age group and has the phenotype, production and fertility to compete in any herd in the country. She scores perfect 10's for udder quality and disposition and, arguably, comes from the best female to ever walk the pastures at Strommen Ranch. She is fertile as a goose and has stuck to her first cycle AI service 5 out of 5 years with a production WR of 4/113 and a perfect 365-day calving interval.

*S R Polly 7110 • Dam of Lot 1*

*S R Polly 804 • Maternal granddam of Lot 1*

*S R Torque 1125 • This full brother to Lot 1 headlined our 2022 sale.*

Lot 2 is owned by Cassidy, Cooper, and Clint Strommen

Photos in this book were captured by the Strommen Ranch crew. We are far from being professional livestock photographers, and make no apologies for it. We enjoy giving you a realistic, jeans-and-boots representation of our cattle.

It is a great pleasure for us to offer this Lot 2 bull to you, as he may be one of the top bulls we will offer this year. We are proud of this guy, mostly because he is owned by Cassidy, Cooper, and Clint, and stems from the first cow they hand picked from the bred heifer pen years ago. He is the first to sell from this new and exciting sire group of Silverado sons. He is massive in his design, stout featured, and carries himself very well for a heavy-boned, big-bodied, easy-fleshing dude. His dam has settled to her AI service every year and is due first cycle AI again with a perfect 365-day calving interval. She scores 9 for udder quality and a 10 for disposition. His granddam was 9 for 9 on first cycle AI with a perfect 365-day calving interval. As one Canadian said, "That 2112 bull scratches me where I itch." He should be easy to find sale day.

We think you will like these Silverado sons as much as we like them. This dude is long-spined and full of guts. He is soft middled and has an efficient look. His hard-working dam is nice made and has proven her fertility by sticking to first cycle AI service every year including this coming spring. She scores perfect 10s for both udder quality and disposition with a 359-day calving interval. Her Pathfinder dam and granddam are excellent in terms of design and production. His granddam has made her way into our elite donor program by having a production WR of 8/106, a 366-day calving interval, perfect feet, a beautiful udder and never missing her AI service 9 out of 9 years.

A Stellar son from the Bonnie Belle cow family that is known for the fertility and power they inject into their progeny. His dam is a daughter of the Estocolmo bull we own with Santiago Debernardi from Argentina and goes back to the Pathfinder sire 4 Aces. She has settled to her first cycle AI service both years and scores a 9 for udder quality and a 9 for disposition.

One of my very favorite bulls in the sale. Here is a powerful, rugged, masculine bull that travels well with a big, sound foot. His Pathfinder XXP dam has a tremendous production record of WR 4/109 and a perfect fertility record of 5 for 5 first cycle AI every year, including this coming spring. She is backed by three generations of Pathfinder females and brings in better calves each year of her life. His dam 7102 scores an 8.5 for udder quality and a perfect 10 for disposition with a 367-day calving interval.

*S R Bononie Belle 7102 • Dam of Lot 16*

*Every year we select a handful of bulls to use in our AI program. We AI for two cycles, then turn the bulls in. Unfortunately, the bulls don't typically have much work to do. We believe fertility is a heritable trait, especially when you actively select for it like we do.*

*Sinclair Emulation XXP • Maternal grandsire of Lot 16*

Big-boned performance bull with a tremendous cow family behind him. If you are looking to improve foot quality, this would be a no-brainer here. This Betty cow family is full of females with excellent foot quality and longevity. They last forever. Fertility is excellent and they fit the environment. These Betty cows are like fine wine; they keep getting better with age. His dam has a perfect 365-day calving interval with an udder score of 9 and a disposition score of 7.

**Recommended for use on heifers.** An excellent Landmark calving ease prospect from one of my favorite young cows. She comes from the powerful Bonnie Belle cow family and scores a 9 for udder quality and a 10 for disposition. She has a Pathfinder dam and granddam and has settled to her AI service every year, 3 for 3. Nice EPD profile for this calving-ease Rito x Traveler x Emulation.

One of my picks in the Torque sire group. This bull is sound structured and flexible on the move. Long-bodied and smooth-made Torque. I will guarantee you that he will be a breeder. We keep getting comments every year about the Torque sons' libido and their ability to travel and cover cows. His Pathfinder dam has a production WR of 5/107 with an udder score of 7 and a disposition score of 10. She has settled to her AI service 5 out of 6 years with a calving interval of 366 days.

## THROUGH THE BADLANDS ANGUS ALLIANCE

If you have cattle heavily influenced by **Talkington Angus**, **Strommen Ranch** or **Best Angus** genetics and you'd like assistance in marketing them, please contact us!

In addition to helping our customers capture added value for their bred heifers and replacement heifer calves, we are working to help you capture added value for your entire calf crop.

*Contact us about these marketing options:*

### **BADLANDS ANGUS ALLIANCE BULL & BRED HEIFER SALE**

**Dec. 6, 2023 • Stockmen's West, Dickinson**

Featuring commercial bred heifers that are out of and bred back to Talkington, Strommen or Best genetics.

### **BADLANDS ANGUS ALLIANCE REPLACEMENT HEIFER CALF SPECIAL**

**Jan. 25, 2024 • Stockmen's Livestock, Dickinson**

Featuring commercial replacement heifers that are heavily influenced by Talkington, Strommen or Best genetics. (These heifers directly qualify for our bred heifer sale when they are bred back to Talkington, Strommen or Best Angus genetics.)

We have the utmost confidence in the following representatives. They have extensive experience and will represent your cattle with honesty and integrity to help you capture the most value for your operation:

Annie 504 consistently brings bulls-with-a-look into the sale pen. This calf is thick through his rear quarter, very attractive from a side profile and heavy-boned. This is a good bull that should sire some heavy steers and excellent females.

Whoa! What a load of a bull! Massive in his build, pounds-to-the-ground mass and muscle. His Black Cedar dam hit it on this one. One of the heavier Adj. 205, with a WR of 116. He might not be the prettiest bull in the pen, but I assure you, he is hanging the most beef on his skeleton. 7/8 brother to Lot 54.

One of the heavy weaning Stellar sons going back to Emblazon and Capitalist – all bulls we have used with success.

*Here's why* **RATIOS MATTER**

**CALF RATIOS** - Ratios tell you how that individual did in relation to his contemporaries. 100 is average. Most breeders don't list ratios. We list them because we want you to know exactly what you are buying.

**COW PRODUCTION RATIOS** - Most breeders don't list this data, either. What good is data unless you share it? Dam production shows you how many calves that cow has had and how they compare to the rest of the herd at either birth or weaning (BR vs WR).

Obviously not a light birth calving-ease bull, but what we have learned is that the Torque daughters have a tremendous pelvic capacity. We pulled this calf by hand out of a first calf Torque daughter. Good females with excellent feet and udder quality the whole way back. After having this big and stout dude, his dam settled to her AI service with twin bull calves. She scores a 10 for udder quality with a 6.5 disposition score and raised one of the heavier calves of her age group.

We are excited to get the Rainmaker 4404 daughters in production. Reports on daughters in production fit right in with what we look for: moderate mature size, great udder and foot quality with excellent mothering ability and a bit extra milk. Lot 65's dam has settled to first cycle AI service every year and scores a 9 for udder quality and an 8 for disposition. His Pathfinder granddam is an excellent cow with a progeny WR of 4/106 and has settled to her AI service every year going 5 for 5. Scale, size, body length and muscle.

We are excited to calve the first Wholesome daughters as we think they will be excellent. Wholesome's close pedigree is loaded with the great production cows from the OCC program. This dude is from a really good Resource daughter with a progeny WR of 7/102 and a 365-day calving interval.

*Strommen Ranch delivers! We truly enjoy visiting our customers at their ranches and seeing our genetics at work in their herds.*

Here is a big-barreled, wide-bodied son of Wholesome from a Mentor x Bushwacker female. Should be a lighter birth bull that could be used on heifers, if you keep an eye on them. He will make females that can handle tough conditions.

Clint had quite a night in June when he scored a backstage pass to the PBR, thanks to his buddies Chad Berger and Hunter Barreth. Some of the legends he met were (clockwise from top left): Daylon Swearingen, Cody Lambert, Jerome Davis, Justin McBride and Michael Gaffney.

## WELCOMING INTERNATIONAL GUESTS

*After a couple year hiatus due to the pandemic, we were ecstatic to welcome international guests back to Strommen Ranch! In 2022, we hosted a group from Argentina and another from Brazil.*

## **ABOUT THE 2-YEAR-OLDS**

Beginning in 2016, we started retaining a portion of our bulls to be offered as two-year-olds, due to an increase of requests from customers. This year, our sale is offering 16 outstanding two-year-old bulls aimed to meet your satisfaction. They were developed as yearlings in a similar manner as the bulls that were sold in our previous Maternal POWER™ sales.

They are mostly virgin bulls that were intentionally kept from the same group we sold in our December sale.

These boys are stout, rugged, masculine and ready for heavy service in big country. We are excited to continue expanding this part of our operation, as it gives us the chance to see our genetics as they age and develop.

A pair of heavyweight performance bulls from the proven donor female Bonnie Belle 408. Their powerfully constructed dam has near perfect phenotype and scores a 9 for udder quality and a perfect 10 for disposition. Their proven sire is known for the power and muscle he puts into his progeny and the easy-fleshing, big-bodied great-uddered females he produces.

When we look to add pounds to a calf crop, body length needs to be considered an important factor. These Torque sons will add pounds while giving you a beautiful set of foundation females. His gorgeous dam scored a perfect 10 for udder quality and a perfect 10 for disposition.

*Left: Jacob Klaudt of Beulah, N.D., interned for us this summer. Jacob attends Casper College in Wyoming, where he is a member of the award-winning livestock judging team. Jacob returned to the ranch over Christmas break to evaluate the bulls and help us get a head-start on footnotes. He is pictured with Strommen Ranch employee Kayla Weinzier.*

*Right: Congratulations to former Strommen Ranch Intern, Cora Huss, who graduated with her masters degree from NDSU and is now an ag teacher and FFA advisor at Beulah, N.D. Fun fact, Cora was our first intern in 2015 and taught our most recent intern, Jacob Klaudt, as her student!*

OCC Honesty was a bull we used to get close to the genetics of his dam Dixie Erica 907C, who is the full sister to OCC Great Plains. We are excited to calve the first Honesty daughters and watch as they mature into production females. His dam has a progeny WR of 3/110 and scores a 9 for udder quality and a 9 for disposition. She stems from a Pathfinder granddam and great-granddam and is due to her AI service with a 366-day calving interval.

*Left: Lacy Meister, who interned for us in 2017, is now the Cattle and Natural Resource Manager for The Seminole Tribe of Florida, Inc., and oversees the Tribe's herd of 8,500+ cattle!*

					/

These commercial bulls are out of our cleanup sires and the cows we usually put embryos in. We identified 1/2 the pedigree on each bull. His dam Travette 8161 has a great disposition and has taken an embryo all but one year. She scores a 8 for udder quality and a 10 for disposition.

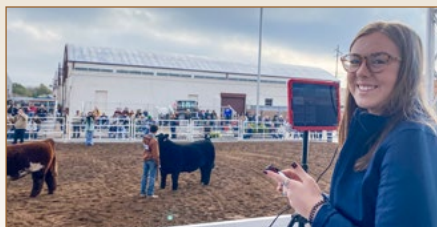

The kids had a busy summer exhibiting their 4-H livestock. Cassidy won Overall Champion Breeding Heifer and Market Steer at the Grant County Fair, along with winning showmanship in both swine and beef, advancing her to Round Robin, where she was named Grand Champion Showman of all species.

Cooper won Champion Market Gilt and Overall Market Hog at the Morton County Fair. He was also the third place swine showman in the 4-H division at the North Dakota State Fair.

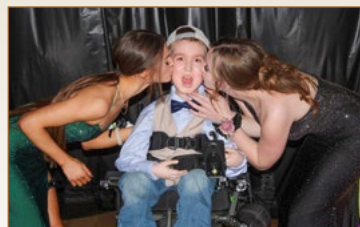

Clint won his first belt buckle at the Morton County Fair with his Overall Champion Breeding Ewe, Jill.

*Cassidy graduated from Flasher High School in May and is a freshman at South Dakota State University, pursuing a degree in agricultural communication with minors in animal science and advertising. She has taken over a portion of the social media presence for Strommen Ranch and Strommen Livestock Services and spent a week working as a Facebook Live Intern at the Arizona National Livestock Show over Christmas break.*

*Cassidy and fellow 4-H livestock judging team member, Ty MacDonald, were pleased to be selected to perform and compete at the National FFA Talent Show during the national convention in Indianapolis, IN, last fall.*

*Cassidy and Cooper are a part of the Morton Co. 4-H Meats Judging Team that competed at the national meats contest in January. Their team won 4th overall at the national contest, winning 3rd in reasons and 2nd in retail. Cassidy placed 11th overall and was a top-ten high individual in the retail and reasons categories.*

*Cooper, a junior in high school, plans to pursue a welding career after graduation. He gained many hours of experience this summer helping us build a new set of development pens at Solen. He welded most of the top rail and clips.*

*Clint became a member of the 5th and 6th grade basketball teams after his buddies convinced their coach to let him sit with the team during games. Coach Hetzel upped everyone's adrenaline when he let Clint call his signature play, 'Bull,' which is short for Bulldogs, the school mascot.*

## DVAuction

Broadcasting Real-Time Auctions

Can't make the sale? **Bid from home with DVAuction's "real-time" internet bidding service!** Buying online is as easy as 1, 2, 3...

1. Create an account at [www.dvauction.com](http://www.dvauction.com) under the "register" tab.
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction - a DV representative will notify you when you are approved.
3. Tune in for the sale and make your purchases!

After the sale, contact Aaron to arrange transportation and payment. High speed internet is required for successful bidding – be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

**Proxy Bidding:** If you can't make time to watch the sale, register a proxy bid and DVAuction will represent your bid while you're away. Look for the "proxy bid" tab on the auction listing and fill in your maximum bids. They'll handle the rest!

**Having troubles?** During the auction, you can type a message to the operator at any time for assistance. DVAuction support can always be reached at (402) 474-5557.

WE VALUE **OUR CUSTOMERS.** We know that our success is wholly dependent on your success. This is why we are committed to raising the type of Angus seedstock that will have a lasting, positive impact on your bottom line, and why we will continue to build a market for Maternal POWER™ females.

Over the past four years, we've partnered with Talkington Angus Ranch and Best Angus to help our collective customers sell their replacement bred females through Badlands Angus Alliance sales in Dickinson in December. The Badlands Angus Alliance is recognized by many as *The Premier Source* for Angus genetics in western North Dakota. We've also helped our customers market and/or purchase high-quality heifer calves through our Commercial Female list. These are marketing perks offered exclusively to our bull customers.

WE VALUE **INTEGRITY IN BUSINESS.** It is why we offer such a thorough bull guarantee. It's simple. We want you to have a bull that lasts for years. Our guarantee tells you we still have 'skin in the game,' beyond sale day. When you buy a Strommen Ranch bull, you can bet that Aaron will check in to see how your Strommen Ranch bulls are performing. If an unforeseen circumstance arises, you can bet that we will stand behind our bulls. If you've ever visited with Aaron about cattle (or any subject, really), you know he does not mince words. He'll tell you what he likes about a bull or female and he'll tell you what he doesn't like about that animal, as well. We feel blessed that our customers also embody this same level of integrity and do their best to protect their investment in their bulls with Maternal POWER™

IT'S NOT HARD TO  
**MAKE DECISIONS**  
WHEN YOU KNOW WHAT  
YOUR *values* ARE.

WE VALUE **QUALITY**. Bulls that make our February and December sales are the top-cut of the calf crop and have been retained specifically for these sales. Not every bull calf born at Strommen Ranch makes it to the sale pen. Not every seedstock operation sells steers. We do.

Strommen Ranch calves grow out on grass. We DO NOT creep feed or use lick tubs. We choose to run our seedstock operation like a no-nonsense commercial operation. We want your calves to perform in your environment – that's why we ask our bulls and females to shine in a similar one. Our cows consistently improve weaning weights, while increasing the percentage of cows that re-breed in the first 21 days, maintaining mature cow size and placing downward pressure on our input costs. We are continually asking our cattle to do more with less.

WE VALUE **MATERNAL POWER™**. Strommen Ranch cows must calve annually and wean a calf that is a high percentage of its dam's bodyweight. They must also possess the basic phenotypic traits to cover country, breed on time, have the smarts and mothering ability to do it on their own, all the while performing under the conditions that Mother Nature has dealt us. We select for fertility, longevity, sound structure and realistic performance in the cowherd.

**Cattle that breed early in the cycle, are structurally sound and can raise big calves efficiently in a practical environment with minimal inputs are the kind of cattle we produce and believe will have a positive impact on your bottomline now and into the future.**

## STROMMEN RANCH DELIVERS:

- Two sales with two ages of bulls:  
**Spring Sale:** Yearlings & 2-Year-Olds  
**Fall Sale:** Coming 2-Year-Olds
- Free delivery within 500 miles.

- Bulls that aren't overfed.
- Volume and repeat buyer discounts.
- Large sire groups.
- **Exclusive marketing assistance.**
  - Badlands Angus Alliance Sales.
  - Commercial Female Listing.
- *Your satisfaction is our top priority.*

## OUR CUSTOMERS' SUCCESS MEANS A GREAT DEAL TO US.

**Every decision we make is weighed against one question: Will this positively impact the operations of our customers?** Our commitment to customer service is year-long, beginning with genetic selection all the way through marketing assistance for our customers' bred heifers and replacement heifer calves.

## AT STROMMEN RANCH, WE:

- Take a balanced approach to genetic improvement - on both sides of the pedigree.
- Develop our bulls responsibly.
- Require our cowherd to excel in a no-frills environment. No creep. Ever.
- Stand behind our bulls with one of the strongest guarantees in the industry.
- Build demand for Strommen Ranch-influenced females through exclusive marketing venues such as the Badlands Angus Alliance and our Commercial Female List.

## BUILDING DEMAND FOR YOUR HEIFERS

We are proud of the herds our customers are developing with Strommen Ranch genetics and that is why **we strive to help them capture additional value for their females** through the Badlands Angus Alliance, where customers of Strommen Ranch, Talkington Angus and Best Angus have marketed more than 2,500 bred females since 2018. Many of those heifers have commanded a \$200 to \$500 per head premium over other bred heifer sales in the region! The Badlands Angus Alliance continues to be the **premier sale in western North Dakota for source and genetic verified Angus replacement females**. It demonstrates the strong demand we've helped build for genetically sourced cattle of maternal pedigree.
