On Monday, September 08, 1997, this Investigator telephonically interviewed alleged sexual abuse witness, HEATH STOCKS. STOCKS furnished the following information:

"I lived in Lonoke Arkansas, all of my life, except when I attended Henderson State University College in Arkdelephia Arkansas. I was active in Boy Scouts and achieved my Eagle Scout badge before graduating high school in 1995. I got out of Scouts shortly after that. While in the Scouts, I recall JOSH AUKES and WADE KNOX, being Cub Scouts so they were younger than me. I do not ever remember seeing anyone touch them, other than when we wrestled. At that time, JACK WALLS and MR. ROBERTS (first name unknown) was over the Scouts. We would go out to WALLS farm and camp out. Usually if the older boys did any drinking, we brought our own liquor. We would drink and get drunk and JACK would take care of us. He would take our keys to keep us from driving drunk. The only problems that I had was with MR. ROBERTS, who has passed away. He was weird and made sexual advances toward me but I do not wish to discuss it because he is passed away. JACK WALLS would give us older boys, ammunition and take us out to his farm to shoot guns. The last time I talked to JACK WALLS was about 2 months before I was arrested in January, 1997. I was arrested and am in prison for capital murder."
