2026 Season Packages and Changes to Service

In this issue you will find some CFB information including returning experience, recruiting rankings, transfer portal rankings and team-by-team schedules that can jump start your 2026 handicapping process. It also contains early Week 1 odds, National Title futures, Heisman futures, Conference futures, season win total numbers and a **few best bets on page 7.**

We are once again doing our weekly football newsletter this year. After not doing weekly write-ups in 2023, we had several complaints (an understatement). We listened and we went back to doing write-ups a couple years ago for every CFB and NFL game each week along with score predictions and will do so again this season. We will also have logs for both CFB and NFL. We will go back to releasing the newsletter on Wednesdays like we did for so many years. However, we will NOT have BEST BETS in the weekly newsletter. That will be VIP only. If you want CFB picks, but can't afford the \$499 VIP, we recommend following us on our many weekly shows via Covers and Hit the Books where we give out several bets.

Do note we release many of our plays early to VIP customers and that will start in May this year including Week 1, season win totals and more. With each passing year, we have more influence on markets and if getting the absolute best number is important to you, VIP might be worth your while this season. It is \$499. Our VIP CFB/NFL picks are 59% the last two seasons (see page 15-16 for a listing of every pick). You will receive the picks via email and telegram. You can sign up today at bradpowerssports.com. If you want to learn more about the differences between our weekly newsletter vs VIP service, refer to page two of this issue or simply email brad@bradpowerssports.com.

Best of luck this season,

Brad Powers

Connelly's returning production formula looks at the most predictive key personnel stats -- the numbers that have the most impact on improvement or regression from season to season. For example, what percentage of your QBs' combined passing yardage is returning? Your offensive line snaps? Your defensive tackles for loss? **OV = Overall % of Production Returning.** **OFF = Offense % returning.** **DEF = Defense % returning.**

USC Ranks No. 1 in 247Sports 2026 Team Composite Recruiting Rankings

BP Sports used to do an average of all the major recruiting service rankings to come up with our own rankings. However, the 247Sports Composite rankings already does that for us. It is a proprietary algorithm that compiles recruiting rankings and ratings listed in the public domain by the major media recruiting services (ESPN, Rivals, 247, On3, etc) creating the industry's most comprehensive and unbiased prospect and team rankings. (Total = # of signees, 5★ = # of star-rated signees, etc).

LSU Ranks No. 1 in 247Sports 2026 Transfer Portal Rankings

The transfer portal is becoming more and more prominent in CFB with each passing season. This year already more than 3,000 players have transferred to a FBS school. Following the portal is more important than recruiting at this point because we are talking about players with CFB experience and can be instant impact players. Below is a list of the 247 transfer portal rankings per school.

Spring Game Notes

Spring games can be a "hot topic" in the sports betting community on how much they really matter, if at all. Obviously, it's just one practice out of 15 during the spring but it is usually played in front of fans inside the stadium with the most "game-like" situations. Personally, I'd rather watch them than not watch considering college basketball season is done, I don't bet baseball and am involved very little with the NBA.

A lot of people ask me can a spring game change your outlook on a team or change their power rating? The answer is 90% of the time I don't do anything with a team's power rating after watching their spring game. What I'm looking for in watching spring games is more about new players, new coaches and new schemes.

- Can the new starting QB throw back shoulder, an out pattern, vertically down the field consistently, etc.
- If the starting QB got hurt during the season, what's the skill level of the backup QB's?
- Can a defensive tackle/nose tackle move the point of attack and take up blockers.
- How do the LB's move sideline to sideline.
- How deep is the team at WR?
- Can their secondary defend space?
- What do the new coordinators systems look like?
- What's the overall vibe and energy around the team?
- How many starters are sitting out? Am I seeing the "real" team?

That's what I'm specifically looking at when watching these games. So if I have a ton of question marks about a team and they answer some of them especially at QB, then I can bump up a team's rating. If they don't answer them and the QB(s) look bad then on rare occasions, I lower a team's rating.

2026 Returning Starters Power 4 Conferences Only

These are our current returning starters for Power 4 teams. We don't include incoming transfers who started at a different school in 2025. OFF = returning starters on offense, DEF = returning starters on defense, Total = returning starters on both offense and defense, * next to the offense number = returns starting QB.

Three Early CFB Best Bets

Season Win Total: Georgia OVER 9.5 Wins -160 or less

Our ratings currently are projecting 10.0 wins and we project Georgia to be favored in all 12 games by at least a FG and 9 of those games by double-digits. Georgia has not lost 3 games in a regular season since 2016 which was Kirby Smart's first season. Georgia ranks No. 8 in returning production which is the best mark in the Smart era. The Bulldogs also return their starting QB Gunner Stockton and 16 of their 21 defenders who logged at least 150 snaps last year.

Season Win Total: Ohio State OVER 9.5 Wins -160 or less

Our ratings are currently projecting 10.1 wins and we project Ohio State to be favored in all 12 games. The Buckeyes do play 5 teams ranked in our top 15 (at Texas, at Indiana, at USC, Oregon and Michigan). They welcome back 8 starters on offense led by the best player in the country in WR Jeremiah Smith. With the exception of 2011 (HC Tressel fired in May), Ohio State has not lost 3 games in a regular season since 2004.

Conference Future: Texas Tech to win Big 12 -125 or better

Texas Tech won the Big 12 last season and we think this year's team could be even better. The Red Raiders rank No. 12 in the country in Bill Connelly's returning production (see page 3) with 12 returning starters and upgraded at QB with Cincinnati transfer Brendan Sorsby. Our power ratings have them more than a TD better than anyone else in the Big 12. Their season win total (11.5) is 3 games better than anyone else in the Big 12. We think this number should be at least -150.

All Preseason Best Bets will be released in the CFB Preview (July 15th)
