

West Groton Water Supply District Report of the Water Commissioners

During the calendar year 2023, the following has been accomplished:

- *The Federal Audit was completed by Powers & Sullivan. The District's finances were reported in good order.*
- *Upgraded our meter reading software and hardware.*
- *A wireless access point was added at the Townsend Road Pump Station, enabling a strong Wi-Fi signal inside the pump station.*
- *Purchased a 2023 Chevrolet Silverado 2500 pick-up truck.*
- *Our Water Technician, Alex, completed his coursework and testing to obtain his D2 Water Operator License.*
- *Maintained excellent water quality, including PFAs levels remaining well below the guidelines.*
- *Received our Water Management Act Registration renewal which is now in effect until April 2033.*
- *Tank cleanings and inspections were done for the Kemp Street tank and the Academy Hill tank, and both are were found to be in great condition.*
- *Our Distribution Map was updated to include Bluebird Lane.*
- *Maintained an excellent rating of "AA with a stable outlook" from Standard & Poor.*
- *Took advantage of increasing interest rates to grow our reserve funds.*
- *Continued the replacement of old SENSUS meters with the new Badger meters (6 meters replaced in 2023).*
