DESCRIPTION: Here is the famous Fred Bear Kodiak Magnum Bow in an ideal draw weight. Great looking and performing recurve. Bow has no delamination; no cracks; limbs are straight. Overlays and tips are in great condition. No chips, dings or cracks. A couple of very faint superficial stress lines (could just be scratches); no crazing. A few minor scratches and nicks here and there. There are two small un-noticeable filled screw holes (probably drilled for a quiver) toward the top and bottom of the riser (see pic on p. 4). Decals are in excellent condition. Overall, this is a really nice bow in excellent condition for its age.

Note: a new cut-to size stick-on Bear hair rest and side plate will be included with the bow (uninstalled in case you want to use some other type of rest).
