

TITAN LEY LINES OF TEHERAN

The purpose of this study is to present the evidence that the city layout of Teheran, Iran is set to the *Cydonia, Mars* ley-lines. Pertaining to the *Cydonia, Mars* anomalies, there are 3 main pyramid structures that comprise the *Martian Motif*. There is the famous *Face of Mars*, the giant *Pentagon Fortress* and the *Pleiadian Pyramid City*. These 3 structures triangulate each other and would make up the core of a large metropolitan city on Earth. What is astonishing is that such a *Martian Motif* is seen implemented in the architecture of almost all the ancient civilizations on Earth. This started, at least based on the archeological record after the *Flood of Noah* with Babylon and Sumer. How the *Martian Motif* is tied to the ley-lines of ancient cities, temples and structures is that perhaps the lost knowledge and connection of the Martian civilization was conveyed to the few and selected 'priestly' class on Earth that constitutes the Secret Societies, etc. This special class of humans are perhaps tasked at keeping the legacy and lifeline operational as even now in the modern era, the same *Cydonia, Mars* motif is incorporated into the major capitals of the world of which Teheran, Iran is another one of them. The *Martian Motif* that is basically encrypted and hidden in plain sight speak to the powers behind the curtain of those that really are the masters of the world.

MARTIAN MOTIF OF THE PLEIADIAN PATTERNS

FINANCIAL CENTER
It is rather interesting that these 3 aspects of the *Martian Motif* incorporated the necessary institutions of power that will and do control the masses. There is the Military, the Financial and the Social-Political aspects of how the ley-lines triangulate each other.

The *Giant Pentagon Fortress* of the *Martian Motif* corresponds to the *Velayat Park* in the southern section of Teheran. From a top view, the 'pentagon' geometric shape might not seem that precise but if one is keen to pick on the ley-lines, there are 5 sides. There is also amazingly an 'X' in the open air area that astonishingly approximates the angles of the pentagon geometry. In most other cases, this area in ancient times did correspond to a military fortress of some time.
