CATTLE  COMPANY

REGISTERED ANGUS

2021 Bull Sale

- Saturday, March 20, 2021 -

Sale time 2:00 P.M at the Ranch - - Towner, ND

Fellow Cattlemen,

Metzger Cattle Company would like to invite you to our March 20, 2021 annual bull sale. We would like to thank all of our past customers for their trust in our breeding program and would like to extend a warm welcome to new visitors. We appreciate your interest in the genetics that we are offering in our 2021 sale.

We strive to produce cattle that perform in a low input environment. Our goal is to produce cattle that are fertile, easy fleshing, and have longevity. This year we are offering a line of sires with generations of proven progeny that have withstood the test of time. We value the opportunity to provide our customers with highly proven AI sires with correct confirmation, milking ability, fleshing ability, docility and fertility in mind.

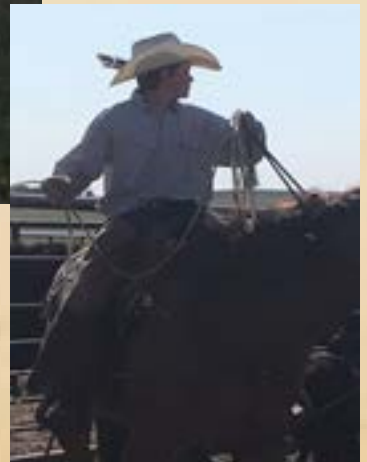

All bulls are developed with the customer in mind, they are fed a high fiber diet with a goal of 3lbs average daily gain. We feel this gives a good test to feed performance without jeopardizing foot and gut health. They have been fed free choice 1st cutting grass/alfalfa hay along with 10lbs of Bull Challenger pellets. Bulls will have scrotal measurements, yearling weights and ratios provided on sale day.

We look forward to your company on March 20, 2021, please come and join us for a CAB brisket lunch before the sale and invite you to stay for fellowship and refreshments after the sale. If you are unable to attend the sale, or would like to evaluate the bulls, their mothers, or their herd mates prior to the sale please feel free to contact us and make arrangements.

Sincerely,

Bill, Cami, Kaitlyn, and Colton Metzger

960 was offered last year in our sale and he lacked the maturity of the other bulls as he was a late born calf. We flushed 805 in 2018 and caused her to be late for the first time in her 10 year career. 805 is an extremely fertile cow, this was the first time she did not settle to an AI breeding.

We used Lot 22 as a clean up bull on our cows last year. He is a big bodied bull from a strong and proven cow family. We would continue to use him but we have too many daughters that go back to the top and bottom of his pedigree.

About the Heifers

These heifers are right out of our replacement pen. They have had the same vaccination program as the bulls. They sell with a 90 day breeding guarantee. If there are any problems please let us know ASAP so we can address them and get it resolved quickly. All heifers bringing over \$1250 will be transferred at no charge. Any heifers bringing less than \$1250 can be registered but we will require \$100 to transfer papers.
