# VERTICAL BLINDS *by Alta*

Vinyl Vertical Blind with Standard Chain & Cord Control:  
WINDFALL S-CURVE | Creamy Coffee V53003

A photograph of a room featuring vertical blinds covering a window. To the right, a portion of a light-colored, tufted chair is visible. In the foreground, a round, dark-colored table with a decorative edge is partially seen. The floor is covered with a patterned rug. A framed abstract painting hangs on the wall to the right.

# LONG AND LEAN

*The latest hip hotel? Nope, your house. The cool lines of our vertical blinds collection serve up the ultimate in cost and energy efficiency with some of the most contemporary colors around. Accentuate the positive.*

**Vinyl Vertical Blind with Standard Chain & Cord Control:**  
PROSE | Off White V8502

## WHY VERTICAL BLINDS?

- Our custom collection includes textured or smooth vinyls, snappy S-Curve vanes, and fantastic fabrics making your window a very tactile affair.
- Block out the light or block out the neighbors with the twist of a wand.
- Incredibly easy-to-maintain vinyl selections mean fewer tasks and more time for...other stuff.
- The heavy-duty headrail system provides long-lasting performance, keeping vanes permanently aligned and quiet while in motion.

## IDEAL FOR...

- A transitional or modern look for sliding glass doors or beautifully broad windows.
- Rooms where maintenance and operation need to be effortless and efficient.

*energy & cost  
efficient*

Vertical blinds boost energy efficiency over large spans of glass, and the interlocking design of S-Curve vanes helps keep both the room and your budget at more comfortable levels.

# DESIGNED FOR THE WAY YOU LIVE

*Ahead of the curve? We are, too. In more ways than one.*

## VANE STYLES

VINYL S-CURVE

The S shape design provides an elegant, drapery-like appearance. The interlocking vanes block out more light than traditional curved vanes.

VINYL TRADITIONAL

Available in embossed, matte, smooth and deep-textured options. Vinyls are unique—providing total light control, privacy, functionality and fashion.

FABRIC

Choose from a variety of light-filtering fabrics for a gentle ambiance or insert into groovers and that same beautiful textile does double-duty as a blackout.

## INSERT GROOVERS

Fabric vanes inserted into vinyl groovers give the blind a soft look while increasing privacy, light control and even energy efficiency.

The insert groover lends a neutral, uniform appearance from the outside. Available in white and ivory, the groover edges are guaranteed to remain clear for the lifetime of the vertical blind.

Fabric color and texture is visible from the interior.

Groovers appear a neutral shade from the exterior.

## CONTROL AND DESIGN OPTIONS

### CHAIN & CORD CONTROL *(standard)*

This traditional option comes with a chain to rotate vanes open and closed, and a cord that moves the blinds side-to-side across the window. The cord secures to the wall for safety.

### SAFETY WAND *(optional)*

Rotate vanes open and closed and move the blinds side-to-side across the window with a sturdy wand. An easy-to-use alternative, ideal in homes with children and pets.

### SEALED-IN WEIGHTS

Ultrasonically sealed-in weights are standard on all fabric free hang vertical blinds.

#### BOTTOM CHAINS

Available on any free hang fabric or vinyl upon request, free of charge.

### FULL 3 1/2" VALANCE *(standard)*

Enjoy even greater elegance with the tailored look of a valance. It attractively covers the headrail while the gently-rounded corners provide a softer, seamless appearance.

## STACKING OPTIONS

*left stack*

Blinds draw to the left and stack on the left. Choose left or right side control position for standard; wand is right control.

*center stack*

Blinds open in the middle and vanes stack on both left and right sides. Choose left or right control position; wand option is not available.

*right stack*

Blinds draw to the right and stack on the right. Choose left or right side control position for standard; wand is left control.

## MOUNTING OPTIONS

A standard rounded-corner valance with matching vinyl or fabric insert conceals the operating mechanism, adds elegance and provides a more tailored look.

*inside mount*

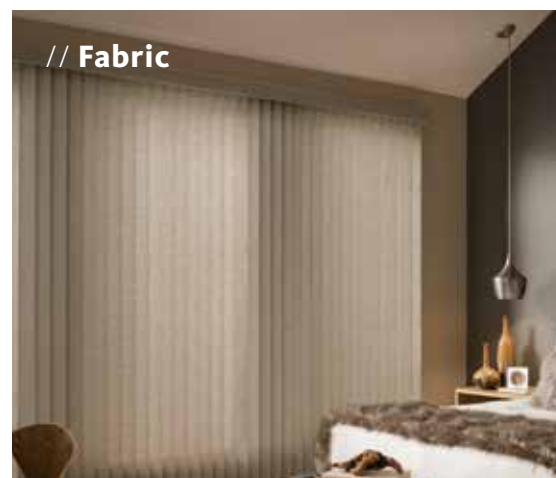

*inside mount with valance returns*

*outside mount with valance returns*
