BOAT REFRESH PREMIUM

Precautionary Statement

Hazardous to Both Humans and Animals

Caution: May cause moderate eye and throat irritation.

Avoid contact with eyes or clothing. Avoid breathing dust and allowing dust to get in eyes. Wash hands thoroughly after handling. Wash contaminated clothing with detergent and water.

Chemical Physical Hazards

This product contains an oxidizing agent. Do not mix with acids or chlorine. Avoid any contact with sparks, flame or burning materials.

MOLD, MILDEW, AND ODOR CONTROL

Deodorizing delivery system for the generation of chlorine dioxide for use as control of mold, mildew, chemical and other odors in confined spaces

TIPS for treating a CABIN

1. Always clean out the cabin being treated.
2. Make sure the area is as dry as possible.
3. Pull down sun visors, open any closed compartments or hatches inside the cabin. Stand up deck mats or rugs on their sides and leave in cabin.
4. After treatment time has expired remove the ClO₂ remaining in the launcher tub by pouring it in to the bilge of the boat. ClO₂ is eco-friendly and reverts to saltwater. If liquid is dark yellow in color, allow it to sit in sunlight until it becomes light in color.
5. Make sure the cabin is sealed and is out of direct sunlight. If applying at an open marina or unshaded area, it is best to apply overnight.

Prior to application, wear proper PPE: Safety Glasses, Gloves, and an Apron.

FIRST AID

DO NOT CONSUME CHEMICAL CONTENTS

If Eye Contact	<ul style="list-style-type: none"> • Hold eye open and rinse gently with water for 15-20 minutes • Remove contacts after the first 5 minutes then continue rinsing the eye
If Inhaled	<ul style="list-style-type: none"> • Move to fresh air
If Swallowed	<ul style="list-style-type: none"> • Sip a glass of water if able to swallow • Do not induce vomiting unless told to do so by a doctor or poison control center
If Skin Contact	<ul style="list-style-type: none"> • Rinse skin immediately with plenty of water for 15-20 minutes • If on hands, avoid touching clothes. May bleach fabrics.

NEVER LEAVE PETS OR REMAIN IN THE BOAT DURING APPLICATION

Directions

1. Remove contents from the clam shell (plastic container).
2. Place the Odor1 orange launcher tub with the red protective bottom on a **flat surface** in the vehicle. Avoid placing on carpet or carpeted floor mats.
3. Using the 2oz measuring cup included, fill with **lukewarm or room temperature water**. Pour into the bottle marked "PART 1". Recap bottle and shake lightly. Pour directly into the Odor 1 orange launcher tub.
4. Using the 2oz measuring cup included, fill with **lukewarm or room temperature water**. Pour into the bottle marked "PART 2". Recap bottle and shake lightly. Pour directly into the Odor 1 orange launcher tub.
5. Exit the cabin and close the door. Allow the activated product to work for at least 6 - 12 hours. For cabins with heavy odor, it is recommended the product be left in the vehicle overnight.
6. After application time is complete, open all doors and windows. Allow air to circulate through the cabin.

*Dispose of all packaging and remaining contents into a recycle bin or trash can.
