Voicemail System

Setting Up Your Voicemail

The first time you access your mailbox, the system will walk you through setting up your password, name recordings, and greetings. Please follow this all the way through and it will not play the tutorial again. The following instructions are for when you need to change something after the initial setup.

Recording greetings

1. Press the **Message** key. 
2. Enter your password.
3. Press **0** for Mailbox Options.
4. You have the option of recording up to three greetings. At the very least, record an Unavailable Message. Press **1** to record the Unavailable Message.
5. Record the message after the tone and press pound.
6. To keep the message, press **1** to accept the message. If not satisfied, press **3** to re-record and repeat steps 5 and 6.

Recording name

1. Press the **Message** key. 
2. Enter your **password**, followed by the **#** key.
3. Press **0** for Mailbox Options.
4. Press **3** to record your name.
5. Record the name after the tone and press pound.
6. To keep the message, press **1** to accept the message. If not satisfied, press **3** to re-record and repeat steps 5 and 6.

Setting your mailbox password

1. Press the **Message** key. 
2. Enter your **password**, followed by the **#** key.
3. Press **0** for Mailbox Options.
4. Press **5** to change your password.
5. Please enter your new **password**, followed by the **pound** key.
6. Re-enter your **password** followed by the **pound** key for confirmation.
7. If everything is correct, the system will tell you your password has been changed.

Listening To Messages

New messages

5. Press 1 to enter an extension # to forward to
6. Enter extension #
7. Press 2 to complete process

To check the voicemail of another extension:

1. Dial * plus the extension # of the mailbox you wanna check
2. Enter the password(should be 1212)
3. From this point the process is the same as checking your own mailbox

Placing a call on hold (we tend to discourage this feature as it is not as practical as placing a call on Call Park)

1. While on the call, press the **Hold**  key. This will place the call on hold on one of the **Line** keys.
2. If you need to place another call after you put the call on hold, you will have to hit the **Line 2** key to get another line. Dial as needed and press the **Dial** soft key to send the digits. .

Picking up a call on hold

1. Press the **Line** button that is blinking where the call is on hold.
2. Or Press the **Pickup** soft key to pick up the last call you placed on hold.

Parking calls

It is best to use the Call Park when placing a call on hold for someone else.

1. While on the call, press an available **Call Park** MPK.
2. The status of the Call Parks are displayed on every phone.

3. To retrieve the parked call, press the blinking Call Park button

***+extension** will allow you to access the mailbox assigned to that extension from any phone on the context.

Extension+* will go directly to the voicemail box for the extension without ringing the phone first. This can be used in conjunction with the transfer feature to send a called right to voicemail.

Transfer a Call

1. During the first active call, press TRANSFER and dial the number to transfer to. You can also transfer to an extension by dialing the extension number or pressing a programmed extension key.

2. Press *blind transfer* softkey to complete transfer of active call

To transfer a call to someone's voicemail:

During an active call, press TRANSFER and dial the extension + *, the call will go directly to the voicemail box for the extension without ringing the phone first.
