

SJNCS Christmas Concert

Dear Families,

Every year, our school has presented an annual Christmas concert featuring performances by our students. While we are unable to present a traditional in-person Christmas concert this year, we will be doing so virtually.

Each grade level, K-8, will prepare one song for performance. Students should practice their songs on their own at home. Practice material will be made available via the students' Google Classroom accounts. There will be limited time during music classes to rehearse together as a group.

During the week of November 16, students will start to rehearse together in the gym during music class, and stand 6 feet apart from one another with face coverings on. During the week of December 7, grades 5-8 will have a dress up day on Wednesday, December 9 to record the final performance of their song during music class. Grades K-4 will do likewise on Friday, December 11.

The performances will then be compiled into a concert video that will be streamed via a private link for students and their families to view at home the week of December 14. The exact date the virtual concert will be available is yet to be determined.

Please feel free to reach out to me with any questions or concerns. More communication will be brought to you as we approach the pending date of the virtual Christmas concert.

I look forward to preparing your children for this year's special event.

Many thanks,
Joshua Vyskocil
K-8 Music Teacher
