Your tip has been successfully submitted.

I was in DC, on the phone with Sen. Daschle's office, on the 15th of Oct, 2001 at the exact moment they opened the anthrax letter. I was discussing a briefing I had provided his office pertaining to the anthrax vaccine, and the subsequent letter Sen. Daschle had written to SecDef Rumsfeld in opposition to the DoD's mandatory inoculation program. At the time I lived in CT, but have since relocated with my family to the address given above. A perspective on M.O. and motive are items I may be able to offer your investigation.

VR,

LtCol Thomas L. Rempfer
