ARUCC COMMITMENT · DEDICATION

Pan-Canadian in Focus
International in Scope

CH

ARUCC Groningen & Student Mobility Project
Creating capacity for domestic and international mobility and transfer for learners and Canadian high education institutions by establishing a Pan-Canadian data exchange network for student document and data sharing.

CH

The Project   Is About Learners

Access
Mobility
Trust
Portability
Connectivity

Learner Focused By Design

Planning post-secondary transcript exchange

Planning transcript exchange with New Brunswick

1 **No inter-provincial data exchange**

2 **No high school or CEGEP data exchange**

3 **No graduate student data exchange**

4 **No connection to trusted third parties other than government (e.g., WES, regulatory bodies, etc.)**

5 **No pan-sector, provincial or national data exchange for out-bound post-secondary credential verification (not incl. apps/ transcripts)**

6 **No pan-sector, provincial or national data exchange to support inbound post-secondary credential verification**

**Full information not available

ARUCC — COMMITMENT DEDICATION

Address Service Failures

CHALLENGES

Inbound to PSIs?

- Most documents arrive in non-useable format – close to 90% handled manually
- Inter-provincial mobility – 6% to 19%+ growth
- In-bound international - 154% growth in last 8 years
  - China, India, South Korea, US, France, Vietnam

Outbound to external third parties?

- Increased govt need to validate official offers - 47% increase in international study permits in last 8 years
- Confirmations of enrolment – 40%+ increases across a host of services
- Confirmations of graduation – 10%+ increase in graduates in last five years

**Growing Learner Mobility
Increasing Document & Identity Fraud!**

ARUCC
COMMITMENT DEDICATION

Two Core Functionalities

- Creating a way for learners to view, curate, and share their credentials and documents whenever and with whomever they want

- Creating national level, official document and data exchange capacity for Canadian post-secondary institutions to enhance services provided for students - This involves establishing direct connections to trusted institutions and organizations across Canada and around the world.

# Business Cases - Document and Data Flows

IN-BOUND

- Post-secondary transcripts
- Credentials
- International documents

The 'How' and the 'What' can vary - Document/data exchange, blockchain, AI, etc.

OUT-BOUND

- Post-secondary transcripts
- Credentials
- Status Documents
  - Offers of Admission
  - Confirmations of Enrolment (and fees paid)
  - Confirmations of pending or actual graduation

Where we're at

- Summer/Fall 2019: developing the purchasing and legal framework for the project; finalizing governance consultation process; developing a framework for identifying and working with pilot institutions and hubs; identifying and sourcing funds for the project.
- Much work to-date regarding governance consultation and legal support
- Technical Advisory Committee met biweekly from January to June, providing expertise and advice related to the technical aspects of the business case and RFP
- Full-day retreat scheduled for Friday Oct 25th
- RFP Committee established; expect to launch RFP in Fall 2019
- Fundraising continues, as does consultation
