

A large, colorful enamel vessel, resembling a giant flower or vase, stands in a desert landscape. The vessel has a wide, flared top with a scalloped edge and a body decorated with various colors and patterns. A man in a hat and jacket stands next to it for scale. In the background, there is a sign for Route 66 Roadside Attraction.

Words of Wisdom from the Master

Always clean the top of the kiln.
Dirt and stuff can fall down into your work,
but if your work is ugly, it doesn't matter.

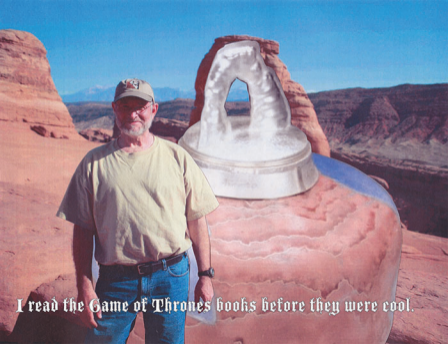

BEING A FAMOUS METALSMITH
IS LIKE BEING A FAMOUS PERSON
THAT BUILDS BOATS IN BOTTLES.

**With great power,
comes great
responsibility.
With no power,
comes no
responsibility.**

If you're embarrassed to talk about your work,
then maybe your work is embarrassing.

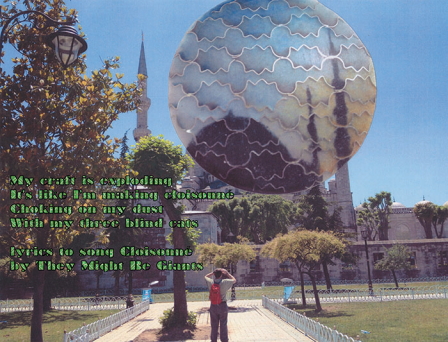

I read the Game of Thrones books before they were cool.

SO YOU'RE
JOHNNY DEPP,
BUT CAN
YOU ENAMEL?

**Yes, you can quench enamel.
It will crack to pieces, but you can do it.**

**My craft is exploding
It's like I'm making cloisonné
Choking on my dust
With my three blind cats**

**Lyrics to song Cloisonné
by They Might Be Giants**

Although no animals were harmed in the creation of this work, some were detained.

DON'T BLAME THE PATINA!

I'M ALL FOR
HUMAN RIGHTS
BUT THERE IS
ENAMELING
TO BE DONE.

"IT DON'T MEAN A THING
(IF IT AIN'T CLOISSONNÉ)"

You can use butterflies
in your work as long
as you do it as well as I do.
