

Capability Statement

T.I.E.
TRIANGLE, INC.
ERECTORS
Hurricane, West Virginia

Triangle, Inc. specializes in most of the categories under the ironworker designation including structural steel, reinforcing steel, shear connectors and railing on bridges. Our primary emphasis is Heavy/Highway. Our team is composed of skilled tradesmen and foremen who have the knowledge and experience to get the job done. Triangle hands have worked below the bottom of the Kanawha River and at heights where chin straps for our hard hats were standard issue. We are capable of handling several projects at a time without compromising on quality and are also available for last minute jobs.

Differentiators

- Triangle, Inc. is a **true partner for general contractors** who need experts in ironwork.
- **We take pride in our work**, earning us the partnering completion of over 450 bridge structures including dams, box culverts, and large commercial & industrial jobs.
- Safety is our number one priority, we have received the **Zero Accident Award** in 2016 and in 2017 the **Safety Achievement Award** from the Constructors Labor Council of WV.
- Our **reliable team** works within our core beliefs, to add value to the general contractor and the project owner.
- Triangle Inc. always strive to deliver our services **safely, responsibly, and promptly.**
