Att: Mr. Luc Rochon,
President, CEO

September 28th, 2011

Mr. Rochon,

I would like to take this opportunity to thank you and your company for the degree of detail and care that you have shown in installing our new synthetic field surface at John Abbott College.

Your staff was extremely patient and helpful in explaining each and every phase of our project and listened attentively to the requests from our users in the final design of the field surface. Your team was also very creative in their thinking and was able to take the information that they received from the College and turn it into practical suggestions for the installation of our field. Our new synthetic field will proudly host games of football, lacrosse, soccer, mini-soccer, rugby and serve as an educational plateau for our Physical Education Department whether they are learning a sport or training on the new synthetic turf running track. The feedback from our students, staff, athletes and the general public has all been very positive and we are very proud of our new field.

Please extend to your staff our appreciation for their level of dedication and professionalism in installing such a quality synthetic field surface for our College. We look forward to continuing our relationship with your company in the coming year in awarding your company the contract to provide maintenance on our new synthetic field surface.

Sincerely,

Daniel Boyer
Coordinator,
Facilities Management Services
John Abbott College
