

Gregg,

After having several solid race weekends to test the Intiminators in the forks of my Spears Racing SV650 I have to say that I am thoroughly impressed. There is a night and day difference going from the emulators that were used in last year's bike to the Intiminators that we now have. It is amazing how deep I can go on the brakes with the Intiminators, the Intiminator is able to give my front end a nice plush feel through the high speed corners but can also give me the resistance and feel that is needed when hard on the brakes or trail braking deep into the tighter corners. The Intiminators have inspired more confidence in my riding and really take the suspension out of the equation so we can just focus on going fast and continue to win races.
