About Musical Encounters

MUSICAL PROGRAMMING FOR THE YOUNG AT HEART.

Established in 1996 and incorporated in 1999, Musical Encounters Inc. was founded to design and perform a wide range of musical programming for the elderly and provides educational services for activity professionals. We believe that creative experiences do not stop at retirement and that the elderly have a right to fulfillment in all aspects of life.

Our goal is to provide creative resources with a pool of qualified professionals who are eager to serve the community.

This year marks our 28th year in the business.

What We Do?

MUSICAL OUTREACH

Individual musical room visits are aimed to provide stimulation and entertainment for bedbound residents. Various musical genres and topics are implemented taking into consideration the personal taste of each resident. The observation notes provided can be advantageous to the interdisciplinary team of health care professionals.

MUSICAL THEME GROUP

This is a musical group program intertwined with a theme that allows the residents to escape to different eras with delightful sounds sure to bring smiles around, and sway with melodies to create and relive memories. Examples of themes are April Showers, Advice Songs, Let's Get Away From It All, Century of Great Songs, and more!

CLASSICAL AND/OR JAZZ NIGHT

For the slightly, more discerning independent elders, this hour provides a live classical and/or jazz music activity - that will bring this particular musical genre, combined with our musician's expert playing and discussion to provide an enjoyable atmosphere resulting in a feeling of connection and togetherness.

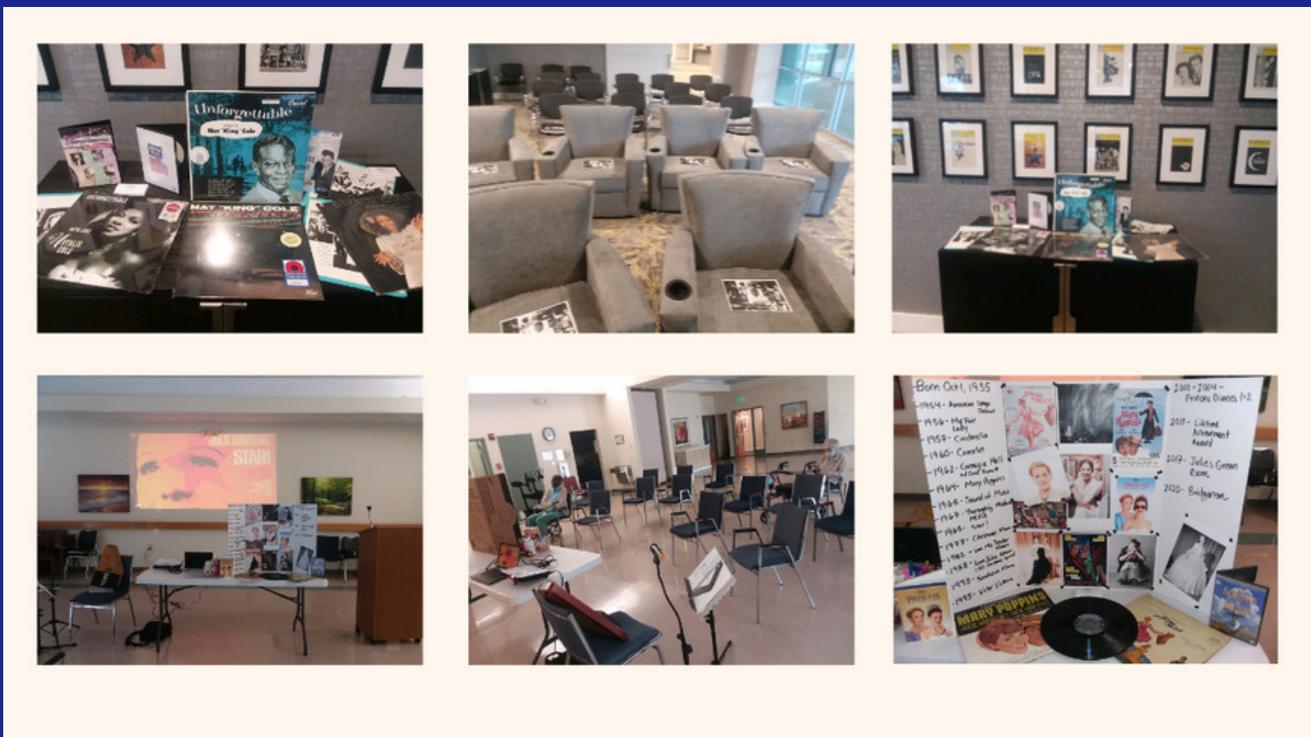

What We Do?

MUSICAL LECTURE PROGRAM

This program combines lecture and music to both educate and entertain the audience about various well-known musical artists of their time. Audiovisual materials and structured interactive discussions are utilized to both involve and stimulate discussion with the residents.
