FOR IMMEDIATE RELEASE

Spring is Coming, Time for Newark to Grow and Thrive

Newark is Ready to Grow!!

NEWARK, NEW YORK, February 26 –Spring is coming to Newark, and this Spring will likely bring a lot of growth to our community. There is a new sense of optimism in the air as the snow melts away from the renovated downtown area. Newark’s Mayor, Jonathan Taylor doesn’t want renovation to stop there, Newark is looking to be in the running for the State’s Downtown Revitalization Initiative to try to revitalize the North Main Street Corridor.

Many businesses have made commitments to Newark recently including: Gurcan Suits, Tailor, and Dry Cleaners, IEC, Grind On Coffee Shop, Marshall Exteriors, Newcut, Ruffalo Appliance, Upstate Refractory Service, and, of course, V Technical Textiles, Inc. All of these businesses are looking for continued growth and many will need skilled employees to grow.

Newark has a lot to offer its citizens: a modernized Hospital, the great Newark Public School System, FLCC, local shopping and service industries, the Historic Erie Canal Park and Trail, and it’s located in the heart of the beautiful Finger Lakes Area. The housing market is doing well, meaning that people are realizing what a nice environment we have here in Newark to raise a family, make a living, and generally enjoy life! Where better to do all of these things than Newark? Let’s grow together! Newark’s change is being noticed check it out [here](#). Thanks to Spectrum News for use of the video.
