One Family's Burial Service DVD Video

"I want to thank you for the excellent videography you did for the combined funeral and memorial service for my father, John J. Bauer (Jack) and my brother John Jay Bauer (Jay). From the moment of contact you were a caring, professional, reviewed exactly what you would do and organized.

You told me you would not be intrusive and I can honestly say I remember seeing you only twice during the service and burial although the proceedings lasted well over an hour. I only saw you when speaking and briefly after the burial.

My contacts with you showed what a caring person you are and very professional in explaining your process, fees and what we would receive for your services. Your quick turnaround time for the videos surprised me and after viewing I was extremely pleased with the quality, extra time you took to add memorable touches with pictures and headings and the music integrated at the end of the service."
