

*Due to the COVID virus, the Model T Winter Clinic originally scheduled for January 23, 2021, at McPherson College, has been CANCELED. The logistics of trying to keep everyone safe made it difficult to put together an event. Plan on The Model T Winter Clinic being back, and even better, on January 22, 2022. If you know of other Model T friends that were planning to attend, please pass this word on to them via your newsletters, email lists, club meetings, etc.*
