

A UNIQUE CLASS TRIP EXPERIENCE! **AN ULTIMATE ESCAPE ROOM GAME!**

Students are placed in a room and work together with their group in order to successfully escape.

Our rooms will improve communication, develop teamwork skills, and inspire students through a fun but safe and inclusive learning environment.

Our puzzles and activities encourage students to look at problems from different perspectives and think outside the box.

They help develop critical thinking skills and encourage students to use logical reasoning. Each member of the group will use their strengths alongside their classmates to collaborate and escape successfully within the time limit.

Created by a teacher, the games have hit on some key curriculum expectations.

- Students are required to demonstrate personal and interpersonal skills and the use of critical and creative thinking processes to acquire the knowledge to connect clues and solve puzzles
- They will demonstrate that they are reflecting on and monitoring their thinking as they search for hidden objects, find combinations and open locks
- Students will also exhibit an understanding of appropriate listening behaviours by adapting their active listening strategies as they work in groups to beat the clock and escape the room

Your class will discover their passion for mystery and uncover the secrets of The Ultimate Escape rooms! If you want your students to experience an unmatched team building experience, look no further than The Ultimate Escape!
