Improvements to the Park

We are planning some improvements over the next year. We've already taken a few steps toward this goal by providing, as part of the rent, reliable weekly trash pickup and—new to the Park—bulky item collection for large throwaways. Another step is the removal of all abandoned trash from the park during a one-time trash pickup. We are providing to all residents, free of charge, the use of large Dumpsters that will be delivered to the park during the last week of June. We are working on a long list of park improvements—we will provide more information as time goes on.
