I have been married to Cindy for 40 years. We have 2 children and 5 grandchildren. My career in the building industry began 40 years ago. And I have held a real estate license for the past 20 years.

My strong work ethic comes from my grandfather. He came to America on a ship in the early 1900's. He changed his name to Henry Batz, from Batzzo in order to get a factory job. He started with Dodge Motors in 1909 and worked there for 46 years.

The motto I live by is to treat your client like your grandmother. Whatever you would do for her, that's the same thing you do for your client. And the words to live by, "it does not cost a dime to be kind".
