

Your pediatric healthcare provider has teamed up with Children's Hospital of Colorado to provide patients and their families with the patient portal, MyChart. MyChart provides you with online access to your medical record. It can help you participate in your healthcare and communicate with your providers. With MyChart, you can:

- **View all of your health information in one place.** See your medications, test results, appointments, medical bills, estimates, and more all in one place, even if you've been seen at multiple healthcare organizations.
- **Connect with a doctor no matter where you are.** Send a message, or have a face-to-face visit over video visit.
- **Take care of your children and other family members.** Stay on top of everyone's appointments and check in on family members who need extra help, all from your account.

How Do I Access MyChart?

- On your computer, go to <https://mychart.childrenscolorado.org>
- On your mobile device, download the MyChart app, select Colorado then Children's Hospital of Colorado.

Download the MyChart Mobile App

If you want to sign up for MyChart on your cell phone or another mobile device, download the mobile app on your phone first.

1. On your mobile device, open the **Apple App Store** (if you have an iOS device) or the **Google Play Store** (if you have an Android device). Look for one of the following icons to find the app store on your device:

2. Search for **MyChart**. Look for the following logo to make sure you have the right app:

3. Tap **Install**.
4. After you've installed the app, tap **Open** or find the MyChart icon on your device and tap to open it.
5. Select your primary healthcare organization from the list of organizations. If you don't see it right away, you can search for your healthcare organization by name, state, or ZIP code.
6. After you've found your healthcare organization, follow the steps below to sign up for an account.

Sign Up for a MyChart Account

You can sign up for a MyChart account either on the MyChart website or the MyChart mobile app. You'll need an activation code to sign up, which can be sent to you via text or email from your pediatric provider's office. You can sign up directly from that message.

Request an Activation Code If You Don't Already Have One

If you don't have an activation code, you can request one online. To request an activation code online:

1. On the MyChart login screen on the MyChart website or mobile app, click **Sign Up Now**.
2. Click **Request Access Code**
3. Enter personal verification items, such as your address and your date of birth, and have an activation code sent to your email address or mobile phone.

Use Your Activation Code to Sign Up

1. From the MyChart login screen on the MyChart website or MyChart mobile app, select **Sign Up Now**.
2. Enter your activation code and other personal verification items, your zip code and your date of birth (if you are the parent, enter your date of birth, not your child's). Select **Next**.
3. On the next page, choose the following:
 - **MyChart username**. Choose something that others wouldn't be likely to guess but is easy for you to remember. It cannot be changed at any time.
 - **Password**. Choose a unique combination of numbers and letters, using both uppercase and lowercase letters. Your password must be different from your MyChart username. Choose a password that you don't use for other websites.
 - **Security question**. Choose a question you can use to verify your identity if you forget your MyChart password. The answer you enter cannot include your MyChart password.
4. On the next screen, choose whether you want to receive a notification message in your personal email when there is new information available in your MyChart account. If you opt to receive email alerts, enter your email address.

Congratulations, you're all signed up!
