- Introducer:*** Weeks Roses

Selling Points:

- With a 'dad' like the AARS winner About Face, you can only expect the new rose 'kid' to be GREAT. The 'kid' inherited the novel golden tan with copper reverse flower colors of 'dad' but the 'son' has larger flowers and improved flower form.
- The sweet & spicy, fruity fragrance will freshen up your garden. It's like having a basket full of juicy grapefruit and freshly sliced apples under your nose! Also stunning as a centerpiece bouquet.
- The new vigorous and prolific bloomer rose 'baby' is well clothed with clean deep glossy green foliage.
