ICING ON THE CAKE

Italian Buttercream

A smooth, silky, not overly sweet meringue-based icing that's great for people who prefer a taste not as sweet as regular buttercream. Also a great option for individuals who want a cake with a smooth finish, but not interested in fondant.

American Buttercream

A sweet butter-based icing like what's found on typical birthday cakes

Cream Cheese

A rich and creamy topping that goes well with a variety of cake flavors

Ganache

A rich chocolate creamy mixture that chocolate lovers adore

Fondant

A rolled sugary paste used for accenting, decorating, and covering specialty and sculpted cakes.
Very popular option for individuals looking for a cake with a beautiful smooth finish
