Summer Reading
Program

Children entering PK3 or PK4 should complete the attached Summer Reading Log. Please list at least 15 books you read over the summer.

The student should pick one book as their favorite from the list below, and draw it on a half sized poster board to show why it was their favorite book.

In August, when we return to school, the students will have a day to bring in their book and their drawing and talk to the class about the book!

Here are some reading tools that will help your child this summer:

- Have them hold a book properly. (Point on the front cover, the back cover, and the spine).
- Teach them to find the title of a book.
- Teach them what an author does. (The author write the words)
- Teach them what an illustrator does. (The illustrator draws the pictures).
- Point out the difference between fiction and non-fiction (Fiction is fake and non-fiction gives us information).
- Model to your child the direction the words go (Left to Right).
