

Pictures of Harry McEvoy and John Bailey Way back When

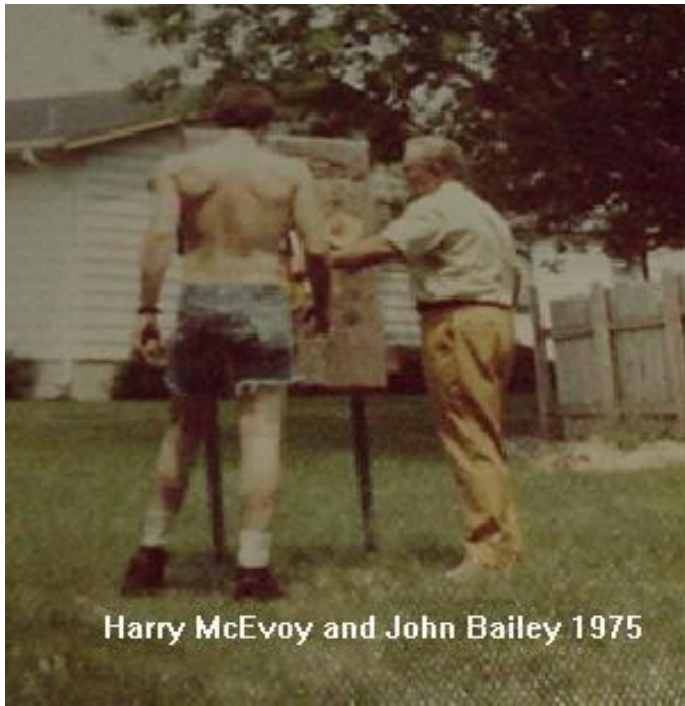

Harry was one fantastic person. He and I would kept in touch a lot, and when we moved to Florida, Harry would come from his sisters house to ours and stay the night before going on to a Gun Show or to another AKTA member house. We have many fond memories of his visits.

Back in 1975 we would drive our motorcycle about 2-1/2 hours to Harry's to do some throwing and visiting. Note: In these days John even has hair, can you believe it.
