

My Living Creed

“Having” is everything!!

*I believe in the existence of **Yha-Wha**, (the only TRUE COVENANT NAME) as the eternal **“Breath of Life”**, the self-existent being from whom all life has originated and is maintained in harmony with the pedigree of an infinite dynamic: the fundamental duality of nature.. 2 + 2 + 2 + 2 , etc. (no trinity pathology) Romans 1:20*

*I believe in the fastness of the **10 Commandments** (Decalogue) as the expression of **Yha’s** sacred will in my life and as a model of his holy expectations.. ..manifested as the only single, apodictic standard and/or embodied moral code for mankind. I believe in **Yha** as the supreme, unchanging and unequivocal Author and governor of that Holy Law. I accept as true and honorable, every tenet of the Holy Decalogue as a testimony to my mortal self ..being the abiding witness of a continued life thereafter, after death, via faith and trust in the resurrection.*

*I believe in the one and only son of **Yha**: **Yha-Oshua**, who lived a sinless life; who died on the cross in the “midst” of the week (Daniel 9:27) ..atoning for my depraved and misguided life; and was raised incorruptible from eternal death, as validating the prophesied.. “3 day/3 night” (Matt. 12:40) concurrence..*

*I believe that my Father **Yha**, alone, raised **Yhashua** up to glory at the end of that third day as the **“First Fruits”** of redemption. “..His new creation for ever”*

*I believe that **Yhashua** is the conciliator of my ‘mortalness’ via eternal atonement as a “once and for all” divine life offering and sacrifice. –not as a mere bloodletting token sacrifice.*

I believe in the tactical advantage of atonement as the primary cleansing process for sin and human failure. I also believe in the application of atonement for the personal accounting of my life as the only means of restoring my soul.. as to the renewing of my spirit in terms of a stronger fortified Will & Conscience, substantiating one’s existence.

*I believe in the inerrant value of the relationship between myself and **Yha**. I believe in the perpetual growth of that relationship as a sacred indestructible collaboration.*

*I believe in the Integral Workings of **Virtue, Truth, Morality & Time** as the four tenets of **Infinite Worth**, uniting meaning, form, function & purpose.. to **Life Everlasting**.*
