# SURGICAL VACUUM PUMP

The Tech West Surgical Vacuum Pump leads the industry in surgical vacuums. Its innovative design allows optimum performance while maintaining low cost. The pump design runs vibration free and extremely quiet. The surgical units come pre wired, pre plumbed and are ready for installation into the dental office.

Tech West will provide full plumbing and electrical design upon request.

## FEATURES

Built in handles on all units.

All tanks are epoxy coated on the inside to meet ASME standards.

Units are set to operate at 18 - 24 inches of mercury.

Vacuum heads have a fast pump down rate.

Surgical Vacuum heads are rubber mounted on the tank.

Small compact design.

Surgical Vacuum are wired for low voltage control.

## BENEFITS

To make lifting and installing the unit easy.

To prevent interior rust and corrosion to the tank.

Optimum performance in the dental office.

Fast recovery of the suction unit.

To reduce vibration and minimize the noise level of the unit.

Allows installation into small equipment rooms.

Allows use of 24V switching in the office.
