DESCRIPTION: Great looking and performing recurve. This revised design of the famed Mustang is quite rare as it was only made in 1976. Black and tan Marblewood riser. Bow has no delamination; no cracks; limbs are straight. No drilled holes; No chips, dings or cracks. No crazing or stress cracks. A few minor scratches and nicks here and there. Decal is in fair condition. Overall, this is a really nice bow in excellent condition for its age. This George Birnie designed bow is also an exceptional shooter.

Note: I put this bow to a stress test (held at full draw for 18 hours) to see if the old glues would hold and if any stress lines emerged. Bow passed the test without issue.
