

The Vision of the Tarot

A 4 -Week Program Beginning Friday, October 23rd

When: Fridays, Oct 23rd to Nov 13th

Time: 7:00 to 8:30 pm

Fee: \$149.00 plus HST (includes materials and guided meditations)

This course will take place at my Scarborough Psychotherapy Office:
15 Guildwood Pkwy, Unit 9,
Scarborough, ON

Participants will need to bring their own deck of Tarot for this learning experience. Decks are a very personal choice, but if you need guidance on where to purchase a deck, please contact me.

The Tarot has been used for hundreds of years to provide insight and guidance, and to help us understand life's situations and experiences. Although first developed as a card game, these cards beautifully reflect what is common in the human experience, which is recognized through their use in divination and intuitive counselling.

If you have ever wanted to learn to read and understand the wisdom and vision of the Tarot, this four-week course provides you great opportunity to learn the basics, including:

- Demystifying the origins of the Tarot
- The difference in the components of the Deck – the Major versus the Minor Arcana
- The cards of the Major Arcana and their meaning
- Understanding the four Suits
- Learning basic spreads and readings
- Developing intuition in the use of the Tarot
