Note: We require that this entire form be completed in its entirety before scheduling.

Note: We require that all individuals undergoing an evaluation have a clean drug screen within 30 days before proceeding with the evaluation. The individual will be scheduled for an in-person intake evaluation and be expected to bring a copy of the drug screen results.

Note: We will not complete an ADHD or ASD evaluation if there is an active substance abuse issue, or any psychosocial issue leading to acute instability (i.e., SI, DV, etc.) that could impact the validity of the evaluation.
